Report of the Town Clerk

WARRANT FOR ANNUAL TOWN MEETING

Norfolk, ss. To either of the Constables of the Town of Braintree. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Braintree, qualified to vote in elections therein, to meet at the polling places in their respective Precincts, to wit:

Polling Place in Precinct 1, Town Hall.

Polling Place in Precinct 2, Legion Building, Hollis Avenue.

Polling Place in Precinct 3, Hose House, Allen Street.

On Monday, the third day of March, 1930, at five forty-five o'clock in the forenoon, then and there to bring into the Wardens of their respective Precincts their votes on the official ballot for a Moderator, Town Clerk, a Town Treasurer, one Selectman for a term of three years, one member of the Board of Public Welfare for a term of three years, one member of the Board of Assessors for a term of three years, three Auditors, one Water Commissioner and Commissioner of Sinking Funds for a term of three years, two members of the School Committee for a term of three years, one member of the Municipal Lighting Board for a term of three years, one Park Commissioner for a term of three years, a Tax Collector, a Tree Warden, two members of the Planning Board for a term of three years, and fifteen constables,

The polls will be opened at five forty-five o'clock in the forenoon, and will be closed at three o'clock in the afternoon.

You are further directed to notify and warn the said inhabitants qualified to vote as aforesaid, to meet at the Town Hall in said Braintree on Monday, the tenth day of March, 1930, at seven forty-five o'clock in the evening, then and there to act upon the following articles, namely:

Article 1. To choose all Town Officers, except those elected by ballot.

Article 2. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 3. To see if the Town will hold its Treasurer harmless on his bond for any loss which may arise from the failure of any National Bank or Trust Company in which the funds of the Town may be on deposit, said Bank or Trust Company being designated by the Selectmen.

Article 4. To see if the Town will hold its Collector harmless on his bond from any loss which may arise from the failure of any National Bank or Trust Company in which the funds of the Town may be on deposit, said Bank or Trust Company being designated by the Selectmen.

Article 5. To hear and act upon the report of the several boards of Town Officers, and any committee, and to choose any committee the Town may think proper.

Abraham Lincoln School Addition	5,667.00
Braintree Highlands School	7,147.76
Highways (Washington and Union)	17,000.00

Interest as follows:

Schools	30,092.50
Town Hall	200.00

Highways (Washington and Union) . . .	2,040.00
Norfolk County Hospital	270.00
Anticipation of Revenue	15,000.00

Planning Board

Article 20. To see if the Town will vote to accept the report of the Zoning Committee and adopt the Zoning By-Laws, as recommended in this report, or take any action with reference thereto.

Article 21. To see what sums of money the Town will vote to raise and appropriate for the expenses of the Zoning Committee, for the preparation of comprehensive Zoning By-Laws, and for the general expenses of the Zoning Committee.

Article 22. To see if the Town will raise and appropriate such sums of money as may be necessary for the purchase or taking by eminent domain for park purposes or other public purposes, of any land on the easterly side of Washington Street between Holbrook Avenue and Union Street, as recommended by the Planning Board, and authorize the Treasurer with the approval of the Selectmen, to borrow all or any part of said sums in accordance with the provisions of any General or Special Act authorizing the Town to borrow for such purposes, or to take any action relative thereto.

Article 23. To see what sums of money the Town will vote to raise and appropriate for the expenses of the Planning Board in the preparation of a comprehensive Town plan, and for the general expenses of the Planning Board.

Education

Article 24. To see if the Town will vote to authorize and instruct the Selectmen to sell at auction or private sale the school building—South School so-

called—and land located on the East side of Washington Street, second lot north of the intersection of Standish Avenue with Washington Street, or take any action relative thereto.

Article 25. To see if the Town will vote to instruct the School Committee to report at the next Annual Town Meeting its recommendation for securing such additional school sites as may seem advisable.

Article 26. To see if the Town will vote to raise and appropriate such additional sums of money as may be necessary for the purpose of constructing, furnishing and equipping a grade school building in that part of South Braintree known as Braintree Highlands, as follows:

For Unforeseen Contingencies \$7,000.00

Miscellaneous

Article 27. To see if the Town will vote to raise and appropriate the sum of \$3,600 for Miscellaneous Expenses.

Article 28. To see if the Town will vote to raise and appropriate the sum of \$2,000 for insurance under the Employees' Compensation Act.

Article 29. To see if the town will vote to raise and appropriate the sum of \$7,272.49 to pay premiums of Insurance Policies on Fire and Liability.

Article 30. To see if the Town will vote to accept the legacy given to it in the will of the late Julia A. Minchin, upon the terms and for the purposes set forth in said will.

Article 31. To see if the Town will vote to raise and appropriate a sum of money to assist Post 87,

G. A. R., Braintree Post 86, American Legion, and Veterans of Foreign Wars No. 1702, in defraying expenses of Memorial Day, as follows:

Sewerage

Article 58. To see if the Town will accept Chapter 17 of the Acts of 1930, the same being an act authorizing the Town of Braintree to construct and operate a system of sewerage and to borrow money for such purpose in excess of the statutory limit, or will take any action relative thereto.

Article 59. To see if the Town in accordance with

Chapter 17, Section 3 and Section 5 of the Acts of 1930, will vote that the Selectmen shall act as a Board of Sewer Commissioners, or will vote to elect a Board of three Sewerage Commissioners, or will vote to appoint and authorize a committee to carry on the construction of the system of sewerage authorized by said Chapter 17 of the Acts of 1930 until the Board of Sewer Commissioners shall have been elected as provided in said act or the Selectmen have first been authorized by vote to act as such Board, as the case may be, or will take any action relative thereto.

Article 60. To see if the Town will vote to raise and appropriate any sum or sums of money to be expended under the direction of the Committee on Sewerage for revision of plans or other necessary purposes or will vote to raise and appropriate any sum or sums of money for the purpose of paying any necessary expenses and liabilities incurred under Chapter 17 of the Acts of 1930, as the same may be accepted by the Town, and to authorize the Treasurer, with the approval of the Selectmen, to borrow all or any part of said sums in accordance with the provision of any general or special act authorizing the Town to borrow for such purposes, or take any action relative thereto.

You are directed to serve this Warrant by posting true and attested copies thereof in three public places in each voting Precinct in said Town of Braintree, ten days at least before said third day of March, 1930, and by publishing the same once each week for two successive weeks in the Braintree Observer and the Braintree Citizen, the first publication to be at least eight days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk before said meeting.

Given under our hands at Braintree, this first day of February, in the year of our Lord, one thousand nine hundred and thirty.

EDWARD AVERY,
HARRY H. BOUSQUET,
HORACE T. CAHILL,
Selectmen of Braintree.

A true copy. Attest:

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., February 10, 1930.

Pursuant to the foregoing warrant, I hereby notify and warn the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and places mentioned for the purposes therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

Braintree, March 1, 1930.

Pursuant to the foregoing Warrant, I have notified and warned the inhabitants qualified as expressed therein to meet at the times and places specified therein by posting true and attested copies of this Warrant in more than three public places in each precinct and by having the same published in the Braintree Observer and Braintree Citizen ten days before the time of said meeting.

JOHN J. HEANEY,
Constable of Braintree.

ANNUAL TOWN MEETING, 1930
COMMONWEALTH OF MASSACHUSETTS

Norfolk, ss.

Pursuant to the foregoing warrant, at a legal meeting, the inhabitants of Precinct 1, of the Town of Braintree, qualified to vote at elections, met in the Town Hall, in said Braintree, on Monday, the third day of March, 1930, at five forty-five o'clock in the forenoon, and the inhabitants of Precinct 2, of said Town of Braintree, qualified to vote at elections, met in the Legion Building, Hollis Avenue, and the inhabitants of Precinct 3, of said Town of Braintree, qualified to vote at elections, met in the Allen Street Fire Station, in said Town of Braintree, at the same hour and date, to bring in their votes for the officers as called for in said warrant.

The meeting at Precinct 1 was called to order by J. Frank Lane, Warden of said Precinct, who acted as presiding officer. He was assisted by the following election officers: Dudley P. Howland, Clerk; James M. Cutting, Michael P. Novelline, Edward J. Sullivan, Harry S. Snow, Frank M. O'Rourke, H. Parker Hobart, Walter B. Robbins, G. Dallas Willis, Charles H. Tobey, Leo E. Halpin, Henry W. Grady, Charles P. Morse, W. Phillips Woodsum and Thomas Slavin, Constable.

The meeting in Precinct 2 was called to order by George A. Arnold, Warden of said Precinct, who acted as presiding officer. He was assisted by the following election officers: Virgie Sears, Clerk, Justin W. Shrader, George E. Sampson, Nelson Hollis, Frank J.

Mischler, Mabel T. Kinna, Alice M. Kirby, Alfred H. Holbrook, Francis J. Mahar, John Drinkwater, Frank McGrann and Clarence R. Bestick, Constable.

The meeting in Precinct 3 was called to order by Winfred G. Waite, Warden of said Precinct, who acted as presiding officer. He was assisted by the following election officers: Thomas Cassidy, Clerk, John A. Ryan, Thomas F. Mulligan, William J. Quinlan, John Riley, William D. Levangie, Charles D. Sheehee, George S. McCarthy, Thomas Lyons, Walter C. Briggs, Bennett H. Swinimer, Russell L. Burton, Preston P. MacDonald, Jr., Alexander Bullock and W. Gordon Stackhouse, Constable.

The meetings in each precinct were conducted in like manner and in accordance with the law. The ballot boxes in the three different precincts were inspected and found to be empty and the registers set at zero (0), and the keys to the ballot box in Precinct 1 were placed in charge of Thomas Slavin, Constable of said Precinct 1, and the keys to the ballot box in Precinct 2 were placed in charge of Clarence R. Bestick, Constable of said Precinct 2, and the keys to the ballot box in Precinct 3 were placed in charge of W. Gordon Stackhouse, Constable of said Precinct 3.

After the close of the polls at 3 P. M., when all votes had been canvassed and the results determined in accordance with the provisions of law, declaration thereof was made in open Town Meeting and was as follows:

Total number of votes cast was:	
Precinct 1	1758
Precinct 2	1693
Precinct 3	1487

Following is the result in detail:

A true record. Attest:

ERNEST C. WOODSUM, Town Clerk.

March 10, 1930.

The Annual Town Meeting was called to order at 7.55 P. M. by Moderator, William F. Rogers.

Article 1. Voted to elect three Measurers of Wood and Weighers of Hay. Charles G. Sheppard, Wilford F. Woodsum and Fred W. Piercy elected.

Voted to elect three Measurers of Lumber. Herbert W. Borden, Charles O. Miller and Shelley A. Neal elected.

Voted to instruct the Selectmen to appoint one Pound Keeper, three Field Drivers and three Fence Viewers.

Article 2. Voted that the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1930, and to issue a note or notes therefor, payable within one year. Any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Article 3. Voted, that the Town Treasurer be and is hereby made custodian of all moneys of the several departments of the Town. The Board of Water Commissioners are hereby instructed to elect the Treasurer of the Town, Treasurer of the Water Department. The Electric Light Commissioners are hereby instructed to elect the Town Treasurer, Treasurer of the Electric Light Department. The Selectmen are hereby instructed to require from the Treasurer such a bond as in their judgment is necessary for the safety of such moneys; that the Treasurer be held harmless on his bond from any loss caused by the failure of any National Bank or Trust Company in which the funds of the Town may be on deposit, with the approval of the Board of Selectmen.

Article 4. Voted that the Tax Collector be held harmless on his bond from any loss caused by the failure of any National Bank or Trust Company in which the funds of the Town may be on deposit with the approval of the Board of Selectmen.

Article 5. Voted, on motion of Mr. Aitken, to take this article up in conjunction with the other articles in the warrant.

Mr. Fitzgerald offered the following motion (8.07): In view of the fact that the Finance Committee has failed to obey the instructions given it by vote of the Town at the last Annual Town Meeting with regard to its annual report, it is moved that this meeting adjourn until 7.45 P. M. one week from tonight in order that the voters may have proper opportunity of studying the recommendations of the Finance Committee which should have been available at the opening of this Annual Town Meeting, March 3, 1930. Not carried.

Article 6. Voted to make the following appropriations:

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

March 17, 1930.

The adjourned Town Meeting was called to order at 7.48 P. M. by Moderator Rogers. Voters checked.

Notice served by the Moderator of the desire to reconsider the vote of the Town under Article 12—For removal of trees caused by construction and repairs of town ways and sidewalks.

On motion of Mr. Aitken, the reading of the minutes of the previous meeting was dispensed with.

Article 15. Voted that there be appropriated from the income of the Electric Light Department the sum of \$18,497.17 for Depreciation Fund; and the sum of \$306,202.83, together with the unexpended balance of \$2,263.09 of the year 1929, for operating expenses, renewals, repairs and new construction. Carried (7.51).

Article 16. Unanimously voted that the Selectmen take by right of eminent domain for public purposes in connection with the Municipal Electric Light Plant, the land on Allen Street, East Braintree, adjoining the Municipal Electric Light Plant, now owned by Benjamin F. Torrey, as recommended by the Municipal Light Board, and that \$8,000.00 for this purpose be appropriated to be taken from the income of the Electric Light Department. Carried (7.52).

Article 17. Voted that there be raised and appropriated the sum of \$62,260.00 for the purpose of laying a water main not less than six inches in diameter

from Little Pond to the yard of the N. Y., N. H. & H. Railroad and from there to Quincy Avenue at a point opposite the plant of the Cities Service Company, and for the purpose of acquiring land and constructing a standpipe thereon and that to meet the said appropriation the sum of \$32,260.00 shall be taken from the surplus water revenues, and the Treasurer, with the approval of the Selectmen and Water Commissioners, be and he hereby is authorized to borrow the sum of \$30,000.00 and to issue bonds or notes of the town therefor, the said bonds or notes to be issued pursuant to the General Laws, c. 44, and to be payable in accordance with the provisions of section 19 thereof, so that the whole loan shall be paid in not more than fifteen years from the date of issue of the first bond or note or at such earlier dates as the Treasurer with the approval of the Selectmen and Water Commissioners may determine. Unanimously carried (7.55). The Moderator declaring more than 200 present.

Voted further that the Water Commissioners shall fix sufficient rates to meet the expense of maintaining and operating the water supply system, including the interest and the debt charges as they mature and the indebtedness herein authorized. Unanimously carried, (7.56).

Article 18. Voted to appropriate the sum of \$6,400.00 for bonds and interest and \$91,800.00 for the maintenance and operation of the Water Supply System, laying and relaying of water mains, the same to be taken from the surplus of water revenues as shown on the books for the year 1929 and from reve-

nues of the department for year 1930. Carried (7.57).

Motion of Mr. Avery to take the section of Article 8, pertaining to the Expenses of the Fire Department, from the table. Carried.

Voted to raise and appropriate \$8,235.00 for the General Expenses of the Fire Department including hydrant service, etc. Carried (7.58).

Post 86, American Legion.....	100.00
No. 1702, Veterans Foreign Wars..	100.00

Article 32. Voted no appropriation to be expended by the American Legion to pay part of the cost of a fireworks display for a Fourth of July Celebration. Carried (10.09).

Article 33. Voted to direct the Selectmen to again lease the Legion Building, so-called, to Post 86, American Legion. Carried (10.10).

Article 34. Voted indefinite postponement.

Notice served of desire to reconsider vote of the Town on Article 32. (10.15.)

Article 35. Voted to authorize the Selectmen to grant a permit to conduct Amateur Boxing Bouts to be held in the Strand Ballroom, Norfolk Square, East Braintree. Carried (10.16).

Article 36. Laid on table.

Article 37. Amendment made by Mr. Avery, to add to the original motion as read: That a committee of five be appointed by the Moderator to do all that is necessary to plan and construct said building. Carried. (10.51).

Motion of Mr. Thompson that Article 37 be laid on the table until after the Article on Sewerage was taken up. Not carried (10.52).

Motion of Mr. Diaute to amend the original mo-

tion: To restrict the choice of the site to the French Estate on Washington Street. Not carried (10.58).

Voted: That there be raised and appropriated the sum of \$126,000.00, out of which \$7,000.00 shall be for the purchase, or taking by right of eminent domain, of land, other than the lot mentioned in the original report, and the balance for constructing a combined police and fire station thereon, including the cost of original equipment and furnishings of said building, and that to meet the said appropriation the sum of \$10,000.00 will be included in the tax levy of the current year and the Treasurer, with the approval of the Selectmen, be and he hereby is authorized to borrow the sum of \$116,000.00 and to issue bonds or notes of the Town therefor, the said bonds or notes to be issued pursuant to the General Laws, Chapter 44, and payable in accordance with the provisions of Section 19 thereof, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note or at such earlier dates as the Treasurer with the approval of the Selectmen may determine. A committee of five to be appointed by the Moderator to do all that is necessary to plan and construct said building. Carried (11.11)—affirmative, 405; negative, 45.

Motion of Mr. Kelly to reconsider the vote of the Town on Article 37. Not carried (11.12).

Motion of Mr. Aitken to adjourn at 11.12 P. M., until 7.45 P. M., Monday, March 24, 1930, carried.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

March 24, 1930.

The adjourned Town Meeting was called to order at 7.45 P. M., by Moderator Rogers.

On motion of Mr. Aitken the reading of the records of the last meeting was omitted.

Under Article 5, Mr. Lakin offered the following resolution: That the auditorium in the new Braintree Highlands School be named in memory of Margaret E. C. Bannon, and that the present Building Committee for said School be appointed and requested to place a tablet therein provided said tablet is furnished to said Committee without any expense to the Town of Braintree. Carried (7.48).

Mr. McNab moved the reconsideration of the vote of the Town under Article 32. So voted.

On motion of Mr. McNab, voted that the Town appropriate the sum of \$500.00 to be expended by the American Legion to pay part of the cost of a fireworks display for a Fourth of July Celebration. Carried (7.55).

Under Article 5, Mr. Avery offered the following resolution: That a committee of three, consisting of the Chairman of the Board of Selectmen, the President of the Braintree Real Estate Board, and the President of the Braintree Chamber of Commerce, be appointed to investigate the Unemployment Situation which now exists within the Town of Braintree, and that the said committee be given full authority to recommend and instruct the Highway Department, the Electric Light Department, the Water Department, the School House Building Committee, the Fire and Police Station Building Committee, to employ in so far as it is possible, and

practicable, the local men and women, citizens of Braintree, in preference to the non-citizens and non-residents of the Town.

And also with authority to instruct the above-mentioned boards and committees to have inserted in any contract or contracts which they let out, a clause to read as follows:—

“Provided always that the contractor, or subcontractor, must employ carpenters, laborers, and mechanics, who are citizens of the Town of Braintree, in so far as it is possible and practicable in the performance of said contracts.” Carried (7.57).

Under article 5, Mr. Hannaford offered the following resolution: That a tablet be placed in the auditorium of the Abraham Lincoln School in memory of Carrie Loring. Carried (7.59).

Under Article 5, Mr. Aitken offered the following resolution: That the Selectmen and Town Counsel, be and hereby are, instructed to appear at hearings, and oppose for the Town, any Legislative enactment, permitting the Town of Braintree to purchase uniforms for its police or firemen. Not carried 8.10.

Mr. Aitken moved that the Town adopt the following scale of salaries and wages, for the employees of its Highway Department:

Superintendent of Streets: Minimum salary per year \$2,500.00, increasing \$200.00 per year in five years to \$3,500.00 maximum.

Asst. Supt. of Streets: Minimum wage per week \$40.00; after five years of continuous service—\$50.00.

Road Foreman: Minimum wage per week \$35.00;
after five years continuous service—\$45.00.

Assistant Foreman: Minimum wage per week \$32.00;

	\$1,969,897.08

Motion to adjourn at 11:22 P. M. Carried.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

WARRANT FOR SPECIAL TOWN MEETING**COMMONWEALTH OF MASSACHUSETTS**

NORFOLK, ss. To either of the Constables of the Town of Braintree.

Greeting:

In the name of the Commonwealth of Massachusetts, and by virtue of authority vested in me by the General Laws (Chap. 39, Sec. 12.) One hundred or more inhabitants of the Town of Braintree having petitioned me to call a Special Town Meeting under said Chapter 39, Section 12 and alleging that the Selectmen unreasonably refuse to call a Special Meeting, you are hereby directed to notify and warn the inhabitants of the Town of Braintree qualified to vote in election therein to meet at the Town Hall in said Braintree on Thursday, the Fourth day of September, 1930, at seven forty-five o'clock in the evening then and there to act upon the following Articles, namely:

Article 1. To see what action the Town will take, if any, with reference to fixing or establishing the hours during which the polls shall be open for voting on September 16th at the State primaries to be held in the current year or take any other or appropriate action under G. L. Chapter 53, Section 43.

Article 2. To see what sum or sums of money the Town will raise and appropriate for election expenses.

You are directed to serve this Warrant by posting true and attested copies thereof in three public places in each voting Precinct in said Town of Braintree, ten days at least before said Fourth day of September.

1930, and by publishing the same once each week for two successive weeks in the Braintree Citizen the first publication to be at least eight days before said Meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk before said meeting.

Given under my hand at Braintree, this twenty-fifth of August, in the year of our Lord, one thousand nine hundred and thirty.

ANDREW H. MORRISON,
Justice of the Peace.

Attest:

JEREMIAH F. GALLIVAN,
Constable of Braintree.

Braintree, Mass., August 25, 1930.

Pursuant to the foregoing warrant, I hereby notify and warn the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and place mentioned for the purposes therein mentioned.

JEREMIAH F. GALLIVAN,
Constable of Braintree.

Braintree, Mass., August 26, 1930.

Pursuant to the foregoing warrant I have notified the inhabitants of the Town of Braintree qualified as expressed therein to meet at the time and place therein mentioned by posting attested copies of this warrant in nine public places, three in each precinct ten days before time of said meeting and having same published in the Braintree Citizen.

JEREMIAH F. GALLIVAN,
Constable of Braintree.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

SPECIAL TOWN MEETING

September 4, 1930.

A Special Town Meeting was called to order at 7:48 P. M. by Moderator William F. Rogers.

Article 1. On motion of Horace T. Cahill, Voted: That the polls shall be opened for voting at the State Primary to be held September 16th, 1930, at eleven o'clock in the forenoon and remain open until eight o'clock in the evening when they shall be closed. Unanimous Vote. (8:05.) The Moderator declaring more than 800 present.

On motion of Horace T. Cahill, Voted: That the Town Clerk be instructed to notify the Selectmen forthwith in writing of the hours of voting established by the Town at this meeting for the State Primary to be held on September 16th next. Unanimous Vote. (8:10.)

On motion of George L. Anderson, Voted: That a Committee of three be appointed by the Moderator to bring in at the next Annual Town Meeting, an amendment to the By-Laws of the Town fixing the hours for the opening and the closing of the Polls for Primaries. Unanimous Vote.

Article 2. Voted, on motion of George L. Anderson, indefinite postponement.

Voted to adjourn. (8:13.)

A true record, attest:

ERNEST C. WOODSUM,
Town Clerk.

WARRANT FOR STATE PRIMARY

The Commonwealth of Massachusetts

NORFOLK, ss. To either of the Constables of the Town of Braintree.

Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in Primaries to meet in Polling Place in Precinct 1, Town Hall.

Polling Place in Precinct 2, Legion Building, Hollis Avenue.

Polling Place in Precinct 3, Hose House, Allen Street.

Tuesday, the Sixteenth day of September, 1930, at eleven o'clock, A. M., for the following purposes:

To bring in their votes to the Primary Officers for the Nomination of Candidates of Political Parties for the following officers:

Governor, Lieutenant Governor, Secretary of the Commonwealth, Treasurer and Receiver-General, Auditor of the Commonwealth, Attorney-General, Senator in Congress, Representative in Congress, Councillor, Senator, 1 Representative in General Court, District Attorney, Register of Probate and Insolvency, County Commissioner, 2 Associate County Commissioners, County Treasurer.

And for the election of the following officers:

District Member of State Committee for each political party for the Norfolk Senatorial District, Members of the Republican Town Committee, Members of the Democratic Town Committee, Delegates to the State

Conventions of the Republican Party, Delegates to the State Convention of the Democratic Party.

All of the above candidates and officers are to be voted for upon one ballot.

The polls will open at eleven o'clock A. M., and will close at five o'clock P. M.

And you are directed to serve this warrant by posting attested copies thereof, in three public places in each voting Precinct in said Town of Braintree, ten days at least before said sixteenth day of September, 1930, and by publishing the same once each week for two successive weeks in the Braintree Observer, the first publication to be at least eight days before said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk before said meeting.

Given under our hands at Braintree, this twenty-seventh day of August, in the year of our Lord, one thousand nine hundred and thirty.

EDWARD AVERY, Chairman,
HARRY H. BOUSQUET, Clerk,
Selectmen of Braintree.

A true copy. Attest:

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., August 29, 1930.

Pursuant to the foregoing warrant, I hereby notify and warn the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and

place mentioned for the purposes therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., September 10, 1930.

Pursuant to the foregoing warrant, I have notified and warned the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and places specified therein, by posting attested copies of this warrant, in three public places in each voting Precinct in said Town of Braintree, ten days before said Primary and having same published once each week for two successive weeks in the Braintree Observer, the first publication being at least eight days before said Primary.

JOHN J. HEANEY,
Constable of Braintree.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

STATE PRIMARY

Braintree, September 16, 1930.

In accordance with the foregoing warrant, the State Primary was held by Precincts.

The polls were opened at eleven o'clock A. M. and were closed at five o'clock P. M.

The following served as Election Officers:

Precinct 1: J. Frank Lane, Warden; Dudley P. Howland, Clerk; Charles H. Roberts, George D. Willis, Joseph M. Magaldi, Henry W. Grady, Thomas J.

Murphy, Edward J. Sullivan, Everett F. Russell, Harry H. Snow, William Gallivan, John Gallivan, William S. Levangie, Charles H. Tobey and Thomas Slavin, Constable.

Precinct 2: George E. Sampson, Warden; John W. Mahar, Clerk; Victor Swanson, Francis Mahar, Patrick Donahue, Rachael McCarty, George Loring, Alfred Holbrook, Arthur Cavanaugh, Mabel Kinna, Alfred DeCoste, Hartley Whittmore, Justin W. Shrader and Clarence R. Bestick, Constable.

Precinct 3: Winfred Waite, Warden; Thomas F. Cassidy, Clerk; William D. Levangie, William J. Quinlan, Bennett Swinimer, Preston P. MacDonald, Walter F. Briggs, John Riley, Martin Frazier, Albert E. Day, David Gunville, Russell Riley, George McCleary and Gordon Stackhouse, Constable.

The ballots of each Political Party were counted separately, recorded, declared and sealed according to law.

The result of the ballot was as follows:

WARRANT FOR STATE ELECTION

The Commonwealth of Massachusetts

NORFOLK, ss. To either of the Constables of the Town of Braintree.

Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Braintree, qualified to vote in elections therein, to meet at the polling places in their respective Precincts, to wit:

Polling place in Precinct 1, Town Hall.

Polling place in Precinct 2, Legion Building, Hollis Avenue.

Polling place in Precinct 3, Hose House, Allen Street.

On Tuesday, the Fourth day of November, 1930, at five forty-five o'clock in the forenoon, then and there to bring in to the Wardens of their respective Precincts, their votes on the official ballot for Governor; Lieutenant Governor; Secretary; Treasurer; Auditor; Attorney General; Senator in Congress; Congressman; Councillor; Senator; Representative in General Court; District Attorney; Register of Probate and Insolvency; County Commissioner; Two Associate County Commissioners; County Treasurer.

Also to vote on the following questions on the same ballot:

Acceptance of the following:

“PROPOSED AMENDMENT TO THE CONSTITUTION.”

Question No. 1.

Article XXI of the articles of amendment is hereby annulled and the following is adopted in place thereof:

Article XXI. In the year nineteen hundred and thirty-five and every tenth year thereafter a census of the inhabitants of each city and town shall be taken and a special enumeration shall be made of the legal voters therein. Said special enumeration shall also specify the number of legal voters residing in each precinct of each town containing twelve thousand or more inhabitants according to said census and in each ward of each city. Each special enumeration shall be the basis for determining the representative districts for the ten year period beginning with the first Wednesday in the fourth January following said special enumeration; provided, that such districts as established in the year nineteen hundred and twenty-six shall continue in effect until the first Wednesday in January in the year nineteen hundred and thirty-nine.

The house of representatives shall consist of two hundred and forty members, which shall be apportioned by the General Court, at its first regular session after the return of each special enumeration, to the several counties of the Commonwealth, equally, as nearly as may be, according to their relative numbers of legal voters, as ascertained by said special enumeration; and the Town of Cohasset, in the County of Norfolk, shall, for this purpose, as well as in the formation of districts as hereinafter provided, be considered a

part of the County of Plymouth; and it shall be the duty of the Secretary of the Commonwealth to certify, as soon as may be after it is determined by the General Court, the number of representative districts. The County Commissioners or other body acting as such or, in lieu thereof, such board of special commissioners in each County as may for that purpose be provided by law, shall within thirty days after such certification by the Secretary of the Commonwealth or within such other period as the General Court may by law provide, assemble at a shire town of their respective counties, and proceed, as soon as may be, to divide the same into representative districts of contiguous territory and assign representatives thereto, so that each representative in such County will represent an equal number of legal voters, as nearly as may be; and such districts shall be so formed that no town containing less than twelve thousand inhabitants according to said census, no precinct of any other town and no ward of a city shall be divided therefor, nor shall any district be made which shall be entitled to elect more than three representatives. The General Court may by law limit the time within which judicial proceedings may be instituted calling in question any such apportionment, division or assignment. Every representative, for one year at least immediately preceding his election, shall have been an inhabitant of the district for which he is chosen, and shall cease to represent such district when he shall cease to be an inhabitant of the Commonwealth. The districts in each County shall be numbered by the board creating the same, and a description of each, with the numbers thereof and the number of legal voters therein, shall be returned by the board, to the Secretary of the Commonwealth, the County

Treasurer of such County, and to the Clerk of every city or town in such County, to be filed and kept in their respective officers. The manner of calling and conducting the elections for the choice of representatives, and of ascertaining their election, shall be prescribed by law.

Article XXII of the articles of amendment is hereby annulled and the following is adopted in place hereof:

Article XXII. Each special enumeration of legal voters required in the preceding article of amendment shall likewise be the basis for determining the senatorial districts and also the councillor districts for the ten year period beginning with the first Wednesday in the fourth January following such enumeration; provided, that such districts as established in the year nineteen hundred and twenty-six shall continue in effect until the first Wednesday in January in the year nineteen hundred and thirty-nine. The senate shall consist of forty members. The General Court shall at its first regular session after the return of each special enumeration, divide the Commonwealth into forty districts of contiguous territory, each district to contain, as nearly as may be, an equal number of legal voters, according to said special enumeration; provided, however, that no town or ward of a city shall be divided therefor; and such districts shall be formed, as nearly as may be, without uniting two counties, or parts of two or more counties, into one district. The General Court may by law limit the time within which judicial proceedings may be instituted calling in question such division. Each district shall elect one Sena-

tor, who shall have been an inhabitant of this Commonwealth five years at least immediately preceding his election, and at the time of his election shall be an inhabitant of the district for which he is chosen; and he shall cease to represent such senatorial district when he shall cease to be an inhabitant of the Commonwealth.

Acceptance of the following:

“LAWS PROPOSED BY INITIATIVE PETITION”

Question No. 2

“An Act to repeal section two A of Chapter one hundred and thirty-eight of the General Laws, inserted by Chapter three hundred and seventy of the acts of nineteen hundred and twenty-three.

Question No. 3

“An Act to amend Chapter one hundred and thirty-one of the General Laws.”

The polls will be closed at three o'clock in the afternoon.

You are directed to serve this warrant by posting true and attested copies thereof in three public places in each precinct, in said Town of Braintree, ten days at least before said fourth day of November, 1930, and by publishing the same once each week for two successive weeks in The Braintree Observer, the first publication to be at least eight days before said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk before said meeting.

Given under our hands at Braintree this twentieth day of October, in the year of our Lord one thousand nine hundred and thirty.

EDWARD AVERY,
HARRY H. BOUSQUET,
HORACE T. CAHILL,
Selectmen of Braintree.

A true copy. Attest:

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass, October 24, 1930.

Pursuant to the foregoing warrant, I hereby notify and warn the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and place mentioned for the purpose therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., November 1, 1930.

Pursuant to the foregoing warrant, I have notified and warned the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and place mentioned for the purposes therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

A true record. Attest:

ERNEST C. WOODSUM.
Town Clerk.

STATE ELECTION

Braintree, November 4, 1930.

In accordance with the foregoing warrant, the voters assembled in the several precincts to cast their ballots for the various State and County Officers enumerated on said ballot and also to vote on the three questions submitted on said ballot. The official ballots were delivered to the Wardens of the several precincts, taking their receipt therefor.

The polls were opened in all precincts at 5:45 A. M., and were closed at 3 P. M.

The following Election Officers served:

PRECINCT 1. J. Frank Lane, Warden; Dudley P. Howland, Clerk; Joseph M. Magaldi, Charles H. Tobey, Andrew A. Nichols, H. Parker Hobart, Thomas J. Murphy, Henry W. Grady, Edward J. Sullivan, Everett F. Russell, Russell White, Charles H. Roberts, Harry S. Snow, William S. Levangie, Thomas Slavin, Constable.

PRECINCT 2. George E. Sampson, Warden; John W. Mahar, Clerk; Alfred DeCoste, Francis Mischler, Alfred H. Holbrook, William G. Loring, Patrick Donahue, Francis J. Mahar, Victor Swanson, Arthur Cavanaugh, Rachael McCarty, Mabel Kinna, Harold S. Pratt, Clarence R. Bestick, Constable.

PRECINCT 3. Winfred G. Waite, Warden; Thomas F. Cassidy, Clerk; William J. Quinlan, William D. Levangie, Bennett Swinimer, John B. Riley, Preston P. MacDonald, Jr., David Gunville, Albert Day, Martin Frazier, Walter C. Briggs, George A. McCleary, John Ryan, George L. McCarthy, W. Gordon Stackhouse, Constable.

The ballots were counted, record made of the votes for each office and person and also the vote on each question submitted and the result declared in each Precinct.

The ballots, check lists, etc., were sealed and labeled according to law. The returns were then forwarded to the Town Clerk's office and the result of the total vote announced.

Total number of ballots cast 4,980

Precinct 1 1,504

Precinct 2 1,940

Precinct 3 1,536

The result of the ballot was as follows:

WARRANT FOR SPECIAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss. To either of the Constables of the
Town of Braintree.

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Braintree, qualified to vote in Town affairs, to meet at the Town Hall, in said Braintree,

On Monday, the twenty-ninth day of December, 1930, at seven forty-five o'clock in the evening, to act on the following articles, namely:

Article 1. To see if the Town will vote to transfer to the General Highway Maintenance Appropriation of 1930, the unexpended balances of the following appropriations of the year 1930:

Street Cleaning Appropriation.....	\$ 181.70
Tarvia Appropriation	2,372.97
Drainage and Catch Basin Appropriation	1,310.28
Guard Rails and Fences.....	1,196.66
Street Signs	883.86
Bridges	82.20

Article 2. To see what sums of money the Town will vote to raise and appropriate from the Overlay Reserve Fund and the Water Department Available Surplus, and the Excess and Deficiency Fund, to repair, resurface, widen, drain and rebuild Liberty Street and for the purchase or taking by eminent domain of any land that may be necessary for the widening of said Liberty Street from a location on Liberty Street at the intersection of Peach Street and Liberty Street in South Braintree, and running in a Northwesterly and Northeasterly direction to a location on Liberty Street opposite the Estate of John P. Robery in East Braintree, to help in providing work for the unemployed of the Town of Braintree.

You are directed to serve this warrant by posting true and attested copies thereof in three public places in each voting precinct in said Town of Braintree, ten days at least before said twenty-ninth day of December, 1930, and by publishing the same once each week for two successive weeks in the BRAINTREE

OBSERVER, the first publication to be at least eight days before said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk before said meeting.

Given under our hands at Braintree, this fifteenth day of December, in the year of our Lord, one thousand nine hundred and thirty.

EDWARD AVERY,
HARRY H. BOUSQUET,
HORACE T. CAHILL,
Selectmen of Braintree.

A true copy. Attest:

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., Dec. 18, 1930.

Pursuant to the foregoing warrant, I hereby notify and warn the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and place mentioned, for the purposes therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

Braintree, Mass., Dec. 18, 1930.

Pursuant to the foregoing warrant, I have notified and warned the inhabitants of the Town of Braintree, qualified as expressed therein, to meet at the time and place mentioned, for the purposes therein mentioned.

JOHN J. HEANEY,
Constable of Braintree.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

SPECIAL TOWN MEETING

December 29, 1930.

The Special Town Meeting was called to order at 7.55 P. M. by Moderator Rogers.

Article 1. On motion of Mr. Anderson it was voted that there be transferred to the General Highway Maintenance appropriation of 1930 as of September 1, 1930 the unexpended balances of the following appropriations of 1930 in the amounts stated as they appeared on September 1, 1930.

Street Cleaning	\$ 181.70
Tarvia	2,372.97
Drainage and Catch Basins.....	1,310.28
Guard Rails and Fences.....	1,196.66
Street Signs	883.86
Bridges	82.20

Making a total of \$6,027.67 transferred to the General Highway Maintenance Appropriation this to have the effect of consolidating the above named appropriations with the Highway General Maintenance Appropriation. So voted 8 P. M.

Article 2. Mr. Anderson moved that for the purpose of providing work for the unemployed in the Town, the sum of \$20,000.00 be appropriated from the overlay surplus Reserve Fund, said sum to be expended for resurfacing and drainage, and to remove such ledge as is advisable, on Liberty Street between Norfolk Road and Grove Street; only needy citizens of Brain-

tree having their legal settlement in Braintree to be employed on this work, and the workers to be employed on a six day rotating schedule.

Mr. Pinault moved to amend the motion by changing the figures from \$20,000.00 to \$25,000.00 and eliminating from the motion the words "And the workers to be employed on a six day rotating schedule." The sum of \$20,000.00 to be appropriated from the overlay surplus Reserve Fund, and \$5,000.00 to be appropriated from the Water Department available surplus making a total of \$25,000.00.

It was moved to amend the amendment by increasing the appropriation from the Water Department available surplus to \$15,000.00 making a total of \$35,000.00. This amendment was not carried. (9:41).

Mr. Pinault, with unanimous consent, withdrew the part of his amendment which read: "And the workers to be employed on a six day rotating schedule."

The amendment made by Mr. Pinault was not carried. (9:43).

Mr. Diaute then offered a substitute motion, changing the word "Citizens" to "Persons." This motion was not carried.

The original motion as made by Mr. Anderson was carried at 10:08.

THE FOLLOWING RESOLUTIONS WERE OFFERED:

Resolved that the citizens of Braintree immediately assembled instruct the heads of all departments to expedite their repairs of every nature at least two months ahead of the original time and start something

the first day of January, or the next legal day, it being a holiday. So voted.

Resolved that as far as possible nothing but citizens of Braintree be employed on all town work or by the town after the first day of January, 1931. So voted.

Resolved that the resident School Teachers in the Town of Braintree be given preference so far as possible when school teaching jobs are open, also when we are in need of a substitute and furthermore, that single resident school teachers be given preference to married school teachers for substitute work. So voted.

Voted to adjourn at 10.29 P. M.

A true record. Attest:

ERNEST C. WOODSUM,
Town Clerk.

REPORT OF STATE AUDIT

**THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND
TAXATION DIVISION OF ACCOUNTS**

State House, Boston

January 7, 1931.

To the Board of Selectmen,
Mr. Edward Avery, Chairman,
Braintree, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Braintree for the period from September 1, 1929 to September 30, 1930, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

Mr. Theodore N. Waddell,
Director of Accounts
Department of Corporations and Taxation,
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the Town of Braintree for the

period from September 1, 1929, the date of the previous audit, to September 30, 1930, and submit the following report thereon:

The financial transactions of the town, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the books and records in the town accountant's office.

The books and accounts in the town accountant's office were examined and checked in detail. The recorded receipts were checked and reconciled with the treasurer's records, and the recorded disbursements were compared with the warrants approved by the selectmen and with the treasurer's books. The accountant's ledger accounts were analyzed, the necessary correcting and adjusting entries were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on September 30, 1930.

In checking the appropriation accounts, it was found that the town accountant had not set up the appropriations as the town warrant called for, it being noted that, although seven distinct general highway appropriations were voted by the town, the accountant had set up on the ledger, as available for highway expenditure, one amount comprising the total of the seven individual sums voted by the town for specific highway expenditures. This combined appropriation account

showed an unexpended balance of \$2,786.65 on September 30, 1930, although, in reality, this amount represented the difference between the total unexpended balances of \$6,027.67 in six of the accounts and an overdraft of \$3,241.02 in the seventh, the highway maintenance account.

It is therefore recommended that the accountant, in the future set up a separate ledger account for each item as voted by the town.

It has been the custom to close the books in the last week of the year, and by so doing, many bills of a given year have been paid from the next year's appropriations. This practice should be discontinued in order that the true expenditures of the town for a year may be shown.

Attention in this connection is called to Section 56, Chapter 44, General Laws, which reads as follows:

The financial year of all towns of the Commonwealth shall end on December thirty-first, and the returns made to the director under section forty-three shall show the financial condition of the town at the close of business on that day; provided, that the treasurer shall, until January tenth enter in his books all items for the payment of bills incurred and salaries and wages earned during the previous year, and expenditures

therefore shall be deemed to be as of December thirty-first preceding.

The books and accounts of the treasurer were examined and checked in detail. The recorded receipts were compared with the records in the several departments collecting money for the town and with the other sources from which money was paid into the town treasury. The recorded payments were checked with the selectmen's warrants authorizing the treasurer to disburse town funds and with the accountant's books.

The treasurer's cash book was analyzed and footed, and the cash balance was verified by an actual count of the cash in the office and by a reconciliation of the bank accounts with statements received from the several banks of deposit, with the savings bank deposit books, and with the several certificates of deposit representing deposits of the Municipal Light and Water Departments.

(Appended to this report are tables showing a reconciliation of the treasurer's cash.)

The tax title deeds on file were examined and listed and the necessary adjusting entries were made to bring the accountant's ledger account into agreement with the tax title deeds on hand and listed.

The books and accounts of the tax collector were examined and checked. The commitments of poll and property taxes for 1929, of poll taxes for 1930 and of motor vehicle excise taxes for 1929 and 1930 were

footed and proved; the payments to the treasurer were verified by a comparison with the treasurer's books, the abatements, as recorded on the commitment books, were checked with the assessor's records of abatements granted; and the outstanding accounts were listed and reconciled with the town accountant's books.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed are correct.

(Appended to this report are summary tables of the tax accounts.)

The records of dog, sporting, and miscellaneous town licenses issued and of fees collected for the period from March 10 to November 26, 1930, were examined and checked in detail. The recorded payments to the county, state, and town treasurers, respectively, were verified, and the cash balance was proved by an actual count of cash on hand.

The records of dog, sporting and Town licenses and fees for the period from December 12, 1929 to March 9, 1930, could not be checked, as the former Town Clerk apparently had not deposited her records with the new Town Clerk upon relinquishing her duties of office.

The books and accounts of the Municipal Light Department were examined and checked in detail.

The outstanding accounts were listed and reconciled to the Accountant's ledger. The ledger accounts were analyzed and the cash on hand was verified by an actual count. Appended to this report are tables showing summaries of the electric light accounts receivable.

The books and accounts of the Water Department were examined and checked in detail. The recorded receipts were checked with the consumers' accounts and the payments to the Treasurer were verified by a comparison with the Treasurer's books. The outstanding accounts were listed and the necessary adjusting entries were made to bring the Town Accountant's ledger into agreement with the outstanding accounts, as listed.

(Appended to this report are tables showing a summary of the Water Department accounts.)

The savings bank books and securities representing the investment of the trust funds in the custody of the Town Treasurer and the Trustees of the Library were personally examined and listed. The income was proved and the disbursements were verified

In addition to the departments and accounts mentioned, the accounts of all other departments collecting money for the Town were examined, and the payments to the Treasurer were verified by a comparison with the Treasurer's books.

The surety bonds of the Treasurer, Tax Collec-

tor, Town Clerk, Water Registrar, and Manager of the Electric Light Department were examined and found to be in proper form.

For the co-operation received from all Town officials during the process of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDWARD H. FENTON,

Chief Accountant.

JULIA A. MINCHIN TRUST

OTIS B. OAKMAN, Treasurer

In accordance with the vote of the Town at the annual meeting of 1930 the Town Treasurer received on December 29, 1930, from M. Alonzo Minchin, Executor, the sum of one hundred dollars, the income of which is to be applied to the care of burial lot in the Plain Street Cemetery.

CHARLES THAYER TRUST

OTIS B. OAKMAN, Treasurer

Emma F. Thayer, an old Braintree resident, died in 1928. By her will, after certain bequests, she made the Town trustee for the remainder of her estate, to be called the Charles Thayer Fund in memory of her father. The income of this fund was to be used first for the care of the Thayer burial lot in the Lakeside

Cemetery. After this the rest of the income is "to be expended for worthy purposes in the Town as it may determine."

The Town accepted the trust at the annual meeting in 1929, and on May 31, 1929, the Treasurer received from Charles C. Mellen, Executor, securities to the value of \$20,329.06. Surely this is a splendid gift and the manner of its expenditure worthy of the most careful consideration on the part of the Town. In 1930, \$450.00 was given for the use of the Park Department.

STATE LAW

A State Law was enacted regulating the passage of Fire Apparatus responding to fires. The law requires the driver of a vehicle to drive to the right hand curb and stop until apparatus has passed. To remain at a distance of (300) feet behind the apparatus and restricting the parking of vehicle within (600) feet of a fire.

In conclusion, I wish to extend my thanks to the Honorable Board of Selectmen, and to the members of the Finance Committee for their co-operation and interest in the welfare of the Department.

To all others that have volunteered their services or assisted the Department in any manner.

The officers and members of the Department have my commendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

Respectfully submitted,

FRED. A. TENNEY,

Chief Fire Department.

ANNUAL REPORT
OF THE
Health Department
OF THE

ANNUAL REPORT OF THE BRAINTREE BOARD OF HEALTH

To the Citizens of the Town of Braintree:

The Braintree Board of Health respectfully submits their report for the year ending December 31, 1930.

Sanitary Survey of the Town Sewerage

The same unsanitary condition reported last year, of the so-called smelt brook, at the dividing line of East Braintree and Weymouth still exists. This matter has been taken up with the County Commissioners, for some remedy to relieve the storekeepers of the odor in their stores, as a result of the above mentioned condition, which odor at times is very offensive.

We wish to call to the attention of the citizens, and all others building new cesspools, that it requires a permit to do so. Cesspools should be dug eight feet deep, six feet wide at the bottom inside, and be topped with from five to six inches of cement, around the collar, with a cast iron or steel cover. Cesspools shall be ten feet from all boundary lines.

Milk

The Board, during the past year, have gone into the matter of milk with our local inspector and believe that all cows in the town should be tuberculin tested or else have all milk sold in the town, pasteurized. Incidentally, the tuberculin test is made, by the State, free of charge.

In the event that the Board insists that all milk sold in the town be pasteurized, then an additional appropriation will be necessary for the purpose of paying the Milk Inspector for the service of inspecting milk, as this new ruling will take up considerably more of his time and effort than he is now required to spend.

The Members of the Board hope to have the support of the people, in this matter.

Ash and Rubbish Collection

The collection of ashes and rubbish is being taken care of as in former years, by a private individual, who charges a nominal sum per barrel collected. This is another matter which has been gone into very carefully, by the Board, during the past year. We believe it is now time that Town had regular collections of ashes and rubbish, and feel that if this work was done under contract and a regular and systematic collection was given, that the nuisance of dumping ashes and rubbish along various streets in the town would be minimized.

At the present time, this latter condition necessitates sending the regular dump custodian, to various streets and sections of the town, from time to time, to clean up places about which the members of the Board receive calls.

Contagious Diseases

The Board of Health, last year started a diptheria

clinic. We are in hopes of continuing this project for the ensuing year.

There were more than nine hundred children inoculated last year, who now should have the Schick test.

We expect that three hundred children will be eligible for three inoculations this year.

Our last report informed you of an epidemic of Mumps. This year we are having an unusually large number of cases of measles.

We wish to inform the people of the Town, at this time, that Measles are a contagious disease and should be reported to the Board of Health, whether or not the parents have a physician in attendance. There seems to some misunderstanding as to whether or not this disease is contagious, among some people.

We have been informed of cases of Measles, in the Town, which have not been reported. It is very imperative that all cases be reported, because children living in homes who have not had Measles are sent to school when not immune, and in this manner we believe the infection is spread.

All children must be kept out of school, when any contagious disease is being suffered in their household, providing the school child has not had that particular disease previously.

Respectfully,

PERCY T. RICHARDS
JOHN H. CAHILL
JOSEPH G. BAILEY

To the Braintree Board of Health:

Gentlemen :

I submit herewith my annual report for the year ending December 31, 1930, with schedule of diseases dangerous to the Public Health appended. I have issued two undertakers, three scavengers, one slaughtering, and 41 alcohol permits, at \$1.00 each, a total of \$47.00, which has been turned over to Town Treasurer.

Respectfully submitted,

E. A. VINTON, Secretary.

To the Braintree Board of Health:

Gentlemen:

I submit herewith my annual report for the year ending December 31, 1930, as Inspector of Meats, Provisions, and Slaughtering. 119 hogs were inspected and passed. 56 provision stores, and 6 bakeries inspected, and found O.K.

Respectfully submitted,

HARRY F. VINTON.

REPORT OF THE MILK INSPECTOR OF THE TOWN OF BRAINTREE 1930

Feb. 7, 1931.

To the Board of Health of the Town of Braintree.
 Gentlemen:

The report of the Milk Inspector of the Town of Braintree for the year 1930 is as follows:

Permits issued:

Dealers permits 34

Producers permits 6

Total 40

Approximately ninety per cent of the milk consumed in Braintree is pasteurized.

The milk supply of Braintree is very satisfactory, as there were only two cases of milk-born diseases reported throughout the year.

Respectfully submitted,

H. R. RECORD, M. D.,

Milk Inspector.

REPORT OF INSPECTOR OF ANIMALS

Jan. 12, 1931.

To the Honorable Board of Selectmen of the Town
of Braintree.

Gentlemen:

I herewith submit my report of Animal Inspector
of the Town of Braintree for the year 1930:

Inspected 74 premises where animals were kept.
There were 212 cows, 3 bulls, 12 young cattle, 5 goats
and 1,859 hogs. These barns are kept in good con-
dition as a general rule and where I have recom-
mended improvements they have been complied with.

Three barns are under State and Federal Super-
vision which are inspected four times a year.

I investigated 29 dog bite cases, I quarantined
18 dogs under suspicion of having rabies and released
15 dogs. There were no cases of rabies.

Respectfully submitted,

WALTER J. MATTIE,

Inspector of Animals.

REPORT OF TUBERCULOSIS FOLLOW-UP WORK 1930

One hundred seventy-eight visits have been made in connection with the follow-up work in Tuberculosis.

All new cases reported through the Board of Health have been investigated, histories taken and reports sent in to the State Board of Health.

An increase of twenty-two new cases has been noted in the past year.

Respectfully submitted,

T. JANE FOGARTY, R. N.

Meetings of the School Committee

Second Monday evening of each month at eight o'clock in the Town House, Washington Street, South Braintree.

REPORT OF THE SCHOOL COMMITTEE

January 1, 1931.

To the Citizens of the Town of Braintree:

Since the last annual report of the School Committee, the enlarged Lincoln School and the new school in the Highlands district have been available for use—the former in the spring, and the latter in the fall of last year. Both buildings are well fitted and equipped, and are of great assistance in enabling this department to carry on its work to better advantage. The Highlands School, in our estimation, is one of the best examples of a modern grade school building at moderate cost to be found in this section of the State. While some relief has resulted, your Committee still finds itself faced with overcrowded conditions in certain buildings—namely, the High, Watson, Penniman and Hollis Schools.

The total membership in the High School is 690. As most of you know, this building was first occupied in the fall of 1927, only three years ago. Upon recommendation of the Housing Committee, the Town originally voted to build a 500 pupil school. Before the completion of the building, however, the Building Committee and the School Committee convinced the Town that it should be built to house 650. When we stop to consider that next fall the school will open with an enrollment of 750, we have firmly impressed upon us that an emergency is rapidly developing in our High School.

It will be necessary at this time to use the auditorium for a study hall, and the present study hall for class room purposes. If relief is not afforded in the

following year, practically impossible conditions will exist. The two-platoon system may be the only solution, if the construction of new buildings is postponed.

At the Penniman School, classes are meeting in the auditorium and immediate steps must be taken to utilize the old auditorium for class-room purposes, so that part time sessions can be avoided next September.

The old portable building at the Watson School affords a temporary, though unsatisfactory, solution of the crowded conditions in this building. In spite of of this, it will be necessary to have one class meet in the auditorium next fall.

With 51 pupils in the kindergarten of the Hollis School your Committee is compelled to furnish and equip the girls' Continuation School room for regular class room work at the opening of the next school year.

We cannot impress upon the citizens too strongly that an emergency will soon exist and the necessity for anticipating it.

The 6-3-3 plan of school organization offers, in the minds of your Committee, the best solution of this problem, with units of sufficient size to provide for future growth, and sites of sufficient area to permit further construction in years to come.

With increased enrollment, we consider it to be the most economical arrangement, as well as providing a more effective grouping mentally. Our growth in pupils of the proposed Junior High School group has been 60% in the last six years.

To this end, we urge that sites be secured at once, while it is possible to do so in strategic geographical

centres and at a moderate cost. They can be so selected in Braintree that no transportation of Junior High School pupils will ever be required.

It would indeed be a pleasure if we could occasionally present a budget smaller than that of some preceding year. While the school population continues to grow by leaps and bounds, it necessitates additional teachers and increased outlay for equipment, buildings, and supplies. We are constantly endeavoring to improve our school system and have its efficiency keep pace, or even exceed, the growth in numbers.

As we write, we are saddened by the untimely death of Dudley F. Hallock, who joined our High School faculty last September and was doing splendid work in the Commercial Department.

May we call your attention to the report of the Superintendent of Schools and of the Department heads which follow.

Respectfully submitted,

RALPH B. WOODSUM, Chairman.

ALIDA N. STEVENS, Recording Secretary.

HENRY D. HIGGINS.

DR. FRANKLIN H. MERRIAM.

HARRIET B. W. KIMBALL.

C. FREDERICK TARBOX.

School Committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

January 1, 1931.

To the School Committee:

I present, herewith, as Superintendent of Schools, my tenth annual report of the School Department.

With the opening of schools in September it was found necessary to increase the corps of teachers by securing the services of twelve more than we had in the previous school year. We now have 134 teachers, of whom 25 are teaching here for the first time. The increase in the teaching corps was necessary on account of the increased enrollment in the High School, the Lincoln School, Watson School, and Penniman School, and because of the opening of the new building in the Highlands.

Fortunately there is at present one class room at the Lincoln School which is not in use, for with the opening of school next September it will be necessary to organize a mixed room of third and fourth grade children, and this room will be available. In September, 1932 it will, in all probability, be necessary to use the Auditorium for class room purposes.

Next September the Auditorium at the Watson School will have to be utilized for class rooms in addition to the two-room portable which is now in use at the Watson School, having been moved to these grounds from the Monatiquot School in anticipation of the increased enrollment which was realized.

At the Penniman School the Auditorium is being used as a class room for a mixed group of third and

fifth grade children which it was found necessary to have because of the increase numbers. Unless favorable action is taken to provide increased facilities at this building, half-time is inevitable next September for some of the children enrolled in the school.

At the Hollis school it was found necessary with the opening of school in September to organize two groups of fourth grade children because of the large number in this particular grade, and with the unusually large number, 51, of kindergarten children, it will be necessary next September to have two groups of first grade children. In order to provide a room for an additional class next September it will be necessary to furnish the room in the basement, formally used by the girls of the Continuation School when that school was being conducted.

At the Jonas Perkins and Monatiquot Schools conditions are very comfortable, except possibly for one room at the Monatiquot, where there are more than 40 children, which is a condition not likely to be such as to secure the best of results in class work. At the Noah Torrey School, too, there are 6 of the 14 rooms in use which have more than 40 in the class.

The one encouraging spot in the whole town is the Highland School, where we really have room to accommodate growth, which is what we should have at all of our buildings, for the growth has come even beyond the estimates made by this Department.

It is certain that the growth will continue, and probably even more rapid in the future than it has been in the past, for with the installation of sewerage facilities local conditions will be so materially im-

proved that capital is more likely to look favorably upon Braintree as a place for profitable investment. This year there has been a 7.3 % growth in our school membership, whereas our neighbor Quincy shows but a 3.5 % growth, Milton 4.7 %, and Weymouth 4.6 %.

Our High School building is proving itself now too small, although it is but the fourth year we have had it. With a total membership this year to date of 690, and a Senior class of 129 to go out in June and an eighth grade of 270 to enter in September, it is quite evident that your High School building which was designed to accommodate 650 pupils is going to be quite inadequate next September. Your principal, Mr. James L. Jordan, has given much thought to the situation, and it is my opinion that unless the enrollment exceeds our expectations a plan and program of work will be possible without being obliged to adopt a half-time program. But many inconvenient and quite undesirable conditions will necessarily exist which are not likely to allow that quality of work in your High School which is now maintained, and which I believe the citizens desire. The study hall will have to be turned over to class room and recitations, and the Auditorium utilized as a study hall; the size of classes for gymnasium work will be almost impossible; book-keeping and typewriting rooms will be most uncomfortably overcrowded with the necessary equipment to accommodate altogether too large classes for the size of the rooms; and the cafeteria, to accommodate our enrollment, will require additional tables and chairs which will necessitate the crowding of this room with accommodations to such an extent that passing will be likely to be quite annoying to all concerned.

These overcrowded conditions existing in our

schools have developed more rapidly than was expected, and require immediate action. I would most respectfully call your attention to my report of last year, wherein there was presented at some length the 6-3-3 plan of school organization and my recommendation for its adoption. The local situation has developed to such an extent that action of some kind is necessary immediately and I see no reason to change my recommendations, which are: first, the purchase of three sites of 15 or 20 acres each, for the construction of Junior High Schools, said sites to be selected on the basis of geographical rather than population centres; second, the immediate construction of two units—the East Junior High and the North Junior High. Furthermore, there should be certain alterations and additions made to the old hall of the Penniman School, immediately, if a half-time program is to be avoided for some of the children in that school next September.

This Fall, shortly after the opening of school, on the 26th of September, there was a Tercentenary program prepared and put on at the Hollis Field, where was assembled the entire Public School membership of over 3,600, including the entire teaching corps of 134 teachers. Comments of our citizens and spectators were most complimentary, and I feel that much credit was reflected upon the teachers by the most creditable work done by the pupils in the various pageantry numbers. Much work had to be done in a short time, only three weeks being at our disposal.

The auditorium of the Lincoln School has a beautiful bronze tablet installed indicating the service of Mrs. Carrie F. Loring as a member of the Braintree School Committee from 1893 to 1927, and this Hall is

to be called the Carrie F. Lorrington Hall in her memory. The auditorium at the Highlands School has been named the Margaret E. C. Bannan Hall in memory of one who taught in our public schools from 1863 to 1913, and here too is to be a bronze tablet of attractive design.

The cost of schools is growing every year, but so is the size of the schools, and I believe a fair statistical study of school costs will convince every one that there is no waste extravagance or lack of good business management. School accounting is not the simplest operation in the world, and it is continually becoming more and more complex so that it is often true that due to technicalities and requirements of State authorities, misunderstanding on the part of the public often results. As an illustration may I call attention to what, at first glance, may seem to be a very simple thing, "School Membership." There are several kinds of Membership. There is "Total Membership," which is the number that indicates all the different pupils which may have been in that room, building, or school system during the period of time indicated; there is "Present Membership," which is the number of members on that date; and there is "Average Membership," which is just what the term would suggest. The "Present Membership" would seem to be a very good figure to work with, but it is far from it because of the fact that if a pupil is absent from school for 10 consecutive days the regulations of the State Department of Education are such that the pupil automatically be-

comes a non-member of the school, and the name is dropped from the list of members; then when the pupil comes back to school, having been out on account of measles or some other sickness, the name goes back on again as a member of the school. It may therefore be seen that oftentimes when there is an epidemic of measles, mumps, or some other disease the present membership of a class or building, and of the school system, is a figure which may be quite misleading, being as much as 200 less than the real number of children actually to be counted and provided with a desk, chair, books, etc.

In figuring per pupil costs there are figures compiled for calendar years and for school years, which run from July 1 to July 1, and costs based on money raised by taxes in the community and also based on expenditures per pupil, regardless of the sources of the funds. It is a fact, too little known, that certain claims are made upon the State for re-imburements on account of salaries paid to teachers, such claims varying from \$100 to \$200 per teacher, depending upon the teacher's training and experience. For example, if a teacher appointed here is paid \$1,200 per annum and meets certain requirements specified by law and by the State Department of Education, the net cost to the Town of Braintree is only \$1,000. The two hundred dollars does not, however, come to the School Department, but goes into the general Town Treasury. In the year 1930 the sum of money received by the Town on account of this one claim alone was \$24,310.,

and the total amount received on account of School Department claims was \$27,998.07. If, as properly could be done, this amount were to be deducted from the budget appropriated for School Department use it quite materially reduces the sum of money. Perhaps another way of looking at it might be to see what percentage return the Town gets from its investment in the School Department budget. A business, I think, which pays 10% on the investment is considered to be pretty good, and you'll find that the returns to the Town on account of School Department claims is 9.5% of the budget for 1930.

According to the annual report of the State Department of Education the "per capita cost for support of Public Schools" in Braintree was such that out of the 355 school systems in the State there are but 69 where it is less, and there are 285 where it is more.

The expenditures per pupil taken from the same report shows \$81.95 for Braintree, and among the towns in our Group, which is Group II, there are 49 towns expending more per pupil than this amount, and but 20 spending less, and the average for the entire group is \$91.91.

The School Department budget for 1931 is more than it was last year, which is inevitable since with increased enrollment there must be an increase in the number of teachers employed. Outside of the increase in the budget on account of teachers' salaries the increase is very small and is occasioned by the necessity of securing increased equipment for the increase in

membership. During the last year much work was done on school grounds and a great deal more could well be done in the way of properly surfacing these grounds to eliminate the tracking into the building of so much dirt and grit which results in rapid wear of floors and stairways. A saving in this matter would be good business.

Back of the Abraham Lincoln and Penniman Schools much fill could be used to good advantage, and as time goes on I hope this fill may be provided. A fence between the Noah Torrey School grounds and the cemetery is almost a necessity, as the one there is in a most dilapidated condition. At the Penniman School, now that the brush has been cleared on school ground to the south of the building it would seem to me to be good business to spend the necessary money to root up stumps and vegetation, at least to such an extent as to prevent further growth there, even if we did not do any real grading of the grounds, for the brush and vines will again grow up if nothing further is done. At the Jonas Perkins School an electric time clock with secondaries and a telephone system from the Principal's office to the various rooms would be a great convenience and aid in more effective administration in that building. This building is the only one in the entire school system not provided with these facilities—except the Pond and South West Schools—and it does not seem quite fair to any longer neglect this unit. There is, of course, annually, in addition to the above, the overhauling of our heating and ventilating

systems, the plumbing, and annually some painting should be done to keep the school plant in good condition. These things all cost money, and it is not good business to allow public property to deteriorate. It simply means just so much more work to be done at a later date, and an accumulation of this work means so much more money to be appropriated at a later date for this kind of work.

In conclusion I would call your attention to the reports and tables following for details regarding the various activities of the Department.

Respectfully submitted,

C. EDWARD FISHER

REPORT OF THE HIGH SCHOOL PRINCIPAL

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts.,

Dear Sir:

Herewith is submitted the report of the High School for the year 1930.

MEMBERSHIP AND ATTENDANCE

The figures on membership and attendance for the school year 1929-30 were as follows:

Total Membership.....	629
Average Membership	578
Percentage of attendance.....	94.74

These figures show an increase in total membership of 30 over the previous year; in average membership of 45; and about 1½% increase in percentage of attendance.

The graduation of 104 seniors last June—the largest number in the history of the school, and the first of 100 or more—was more than offset by the entrance of our largest first year class in September. The school has reached a new figure in registration for the present school year, the number to date being 690, divided as follows:

	Boys	Girls	Total
Post graduates	6	3	9
Seniors	59	67	126
Juniors	71	72	143
Sophomores	93	95	188
Freshmen	126	98	224
	<hr/>	<hr/>	<hr/>
Totals	355	335	690

Our present enrollment, with an eighth grade membership of 270, would indicate that there should be enrolled next September, allowing for withdrawals, transfers and graduation, approximately 750 pupils.

With a corridor locker capacity of 681 for both pupils and teachers, and one other available home room, the situation has many serious problems with which to contend. The time is at hand for the enlargement of the present high school building, or the erection of junior high schools.

TEACHING FORCE

Only one vacancy occurred in our force at the close of the school year in June. This was due to the resignation of Miss Helen Donovan, who accepted a similar position in Connecticut. Three more teachers were added to the force, making a total of four new this year. They were as follows: Miss Elisabeth B. Gross, English; Mr. Henry L. Farr, History, Civics, English; Mr. Paul V. Toolin, Science; and Mr. Dudley F. Hallock, Commercial subjects. Even with the additional teachers, no changes in the program of studies have been made, the work of the three additional ones

being needed to take care of the increase in the size of the classes, some of which are still over-large. Two more will be required in September, 1931, with the possibility of three, if the increase from unexpected sources, such as transfers from other schools, is as large as the one in September, 1930.

TRANSPORTATION

During the present school year, five overcrowded busses of pupils living two miles or more from the school are being transported from East Braintree. At least six busses will be required in September, 1931. There are also thirty-two pupils who are being transported by trolley from Braintree Highlands. I would again recommend, as of last year, that each bus be manned by two men instead of one. This means of transportation carries with it very serious problems of disorder as evidenced in a nearby town where it became necessary for the Selectmen to place a policeman in charge of each high school bus. Conditions have not reached that stage in Braintree, but there is really danger, to the pupils riding, of the driver's attention being distracted by disorder in the bus and possible accidents occurring.

PROBLEMS

The most serious problem from now on will be that of finding accommodations in class rooms, home rooms and lockers for the ever-increasing numbers.

For the school year 1931-32, by using the auditorium for a study hall for a major portion of the time, classes can be cared for with some crowding. But unless an addition is put on the building or the first year class removed to Junior high schools, the following year will see a very serious overcrowding or a two-session plan with all pupils on less than full-time schedule.

Another serious problem, as a result of the increase in class numbers, is that of the work in the gymnasium. At the present time, some classes are already too large for our rather small floor space, and next year will see the same situation in all classes, particularly in the case of the boys. The lack of wisdom on the part of the Town in building a building with one small gymnasium instead of one large one, which could be divided on occasion into two, is very apparent. With 80 or more boys and nearly as many girls who are interested in class basketball, 40 more in varsity basketball, a large number in a gymnasium team and so on, three gymnasium floors could be used each day from November until April. As matters now are, the big majority of pupils, both boys and girls, who are interested in basketball but are not experienced enough to play on the varsity teams, have little chance to receive time and attention after the first of December, when the varsity practice begins.

The problem of extra-curricula activities is how to finance them. Particularly, athletics and school magazine would seem to be the two most important of such activities, at least from the standpoint of the money needs involved. Of all the team games, basketball is the only one which pays its own way. Baseball and football both are money losers, and track, cross

country and field hockey in a lesser degree. Football, which in most high schools is the big money maker and carries the other sports, is in Braintree almost a complete loss, due to an unenclosed field.

Of all the sports, track is the least expensive. In this, we have been rather successful, particularly in view of the fact that the boys have not even a track laid out and practically no equipment with which to work. A comparatively few dollars wisely spent would give us a useable track around the football field and would seem to be a good investment for the Town. Ex-President Coolidge, in one of his newspaper articles, recently stated that "Plenty of playgrounds and games is the best cure for youthful delinquency. Plenty of outside sports is a wise investment in citizenship."

The Wampatuck is each year faced with the problem of financing its four issues and has, in recent years, been forced to resort to giving a play in order to raise funds to make up the difference between the receipts for the magazine and the cost of printing. This year its production of "In the Next Room" was especially successful from every viewpoint. The result of the attempts of the business managers to secure advertisements from local merchants this year, would seem to indicate that the response would be more generous than in recent years, in spite of the persistence of the Chamber of Commerce in classing the finest high school magazine in Southeastern Massachusetts as a "program or similar form of advertising."

One problem mentioned in last year's report is of such importance as to justify repetition. That problem is the one of unnecessary absence, particularly on the part of the older pupils, who should realize the need of taking advantage of all the time

possible for their school work. Special notices and appeals to parents produce little result as replies in most cases are received to not more than fifty per cent of the notices sent out, even when stamped and addressed envelopes are enclosed. Only prompt and regular attendance can secure the results desired. Generally speaking, the only legitimate excuse for absence is that of illness on the part of the pupil or in his immediate family.

Respectfully submitted,

JAMES L. JORDAN.

REPORT OF THE ART SUPERVISOR

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

I herewith submit my report upon the drawing in the grade schools of Braintree for the year 1930.

The course of study in drawing is prepared to cover the requirements in drawing published by the State Department of Education. In the grades it includes Design, Color, Representation and Handwork. The principles of design are studied in all the grades, but the subject matter and presentation of it is adapted to the grade in which it is to be used. For example, a first grade may be having lessons in design based on repetition in a row, while the eighth grade also has design based on the same principles. Naturally the results are widely different, but the principles involved are the same. All grades should know that design is an orderly plan—the fundamental laws of which are repetition, progression and balance. The understanding of these laws of design in nature and art; by exercises in creating simple design based on these laws; and, whenever possible, the application of design to objects used in the children's everyday lives.

In representation, familiar objects such as people, buildings, vehicles, animals, birds, trees, plants, etc., are drawn. Emphasis is placed on the habit of free

expression strengthened by truthful drawing. Representation can be correlated with almost every subject in school work. The subjects for representation can be drawn from literature, music, history and geography. A child's mental picture of a subject is sometimes surprising when expressed on paper. The child who colored the Red Sea red could perhaps never have revealed that misunderstanding to his teacher except by drawing. We should have more of the kind of drawing that reveals the child's mental pictures. Teachers are sometimes timid about giving lessons of that nature because the results are not always good for exhibition; but as a revelation of the child's mental processes they are invaluable.

I am looking forward to the time when we will be able to add to the programs of the upper grades courses in Art Appreciation, closely allied with an elementary history of Art. Such a course is needed to give proper background and an appreciation of our own day and its art.

In conclusion, I wish to take this opportunity to thank the Superintendent, principals and teachers for their continual co-operation with me in my efforts toward bringing to every child in the Braintree schools a sense of appreciation of all the design, color and beauty that is to be found in the lives and experiences of all of us.

Respectfully submitted,

RUTH H. JOHNSON.

REPORT OF VOCAL MUSIC SUPERVISOR

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

I herewith submit my annual report of vocal music in the Braintree schools.

Fourteen more classes have been added to my schedule this past year by the opening of the Highlands School, the addition to the Abraham Lincoln School, the portable building erected at the Thomas A. Watson School, and a third and fifth grade class in the assembly hall in the Penniman School. The two buildings, Noah Torrey Grammar and Noah Torrey Primary, are combined into one day's work, and the eight classes in the Highlands School are all visited in a morning.

Although I cannot devote as much time as I need for the various phases of our music study in all these classes, the work is progressing and much interest and enthusiasm is manifested in the work.

Much special effort has been made to develop a finer tone quality in our singing, to secure a tone that has the virility of youth, which does not strive for the ruggedness of maturity, but retains the purity and charm of the young voice.

More than fifty per cent of the music period is devoted to song singing. A rough computation discloses the fact that at the end of the sixth year four hundred songs have been studied. Through the song comes the sense of beauty, enjoyment, culture, and musical discrimination. All these can be expressed when the pupil brings to the song singing their knowl-

edge that is gained in sight reading, which is carried on extensively, systematically, individually, and daily.

In the seventh and eighth grades we have full-fledged chorus singing in three and four parts of well arranged part songs and choruses, a most watchful care and guidance of the young voices, the most careful classification and frequent re-classification of the voices with judicious selections of music, and sincere efforts toward artistic interpretation.

In three of our buildings the work in music appreciation is supplemented with the school broadcast by Walter Damrosch, on Friday mornings. A marvelous opportunity that the radio gives to educate the ears to a proper understanding of music as an art. We want to be not only a singing nation but an intelligent listening one as well. We want to keep alive in song, in chorus, in orchestra, the great contributions of music which have for centuries stirred patriotism, sustained our love for the beautiful, and satisfied our souls.

The radiating center of all art is rhythm. If we intend that our children shall appreciate art and become sharers in the result achieved by some of the best minds of the ages, then we must give them their opportunity to develop their capacity for rhythm. The best way to begin this development of the rhythmic sense is by the use of small percussion instruments such as cymbals, tambourines, triangles, bells and drums. I regret that only three of our schools have the advantage of these instruments.

In the High School an increase of fifty students are taking vocal music this year. Over three hundred pupils, a surprisingly large number, when the students have to make up the regular class work they lose on account of taking singing.

As we have only forty minutes a week I divide the group into four choruses so as to give them as much as possible in this allotment of time. Not until this chorus singing is supplemented with courses in harmony, music appreciation, and regular glee chorus practice can we get the desired results. It is necessary that we offer these courses to students who plan to go to Normal School that our boys and girls can compete favorably with students from High Schools where these courses are offered. And again they are essential for students who intend to make music their life work.

The High School gave two most creditable public demonstrations of their vocal music during the past year—the operetta, “Swords and Scissors,” and a half-hour broadcast from Station WEEI. It is essential to encourage the talented boys and girls to give expression to their musical ability. This is the age of self-expression. And it is through music the feelings find their rich expression. The joy of singing in chorus, solo, duet, quartet, is the most genuine, the most natural, the freest way of expressing the musical emotions.

Calvin Coolidge, former President of the United States, says: “It is through art that people find the expressions of their better, truer selves. Sometimes

in painting, sometimes in sculpture, and architecture, but of all the fine arts there is none that makes such a universal and compelling appeal as music."

Realizing the influence of beauty in life has caused us to stress in the schools the development of the arts, the cultivation of those finer things in life which lead to a higher and truer understanding of life in this world which we inhabit, and of the Power that rules over it.

Respectfully submitted,

INGRID E. EKMAN.

REPORT OF THE INSTRUMENTAL MUSIC INSTRUCTOR

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

I herewith submit my annual report of the Instrumental Music Department of the Braintree schools.

The aim of music in the public schools is to equip the boy and girl with some means which will enable him to attain or make for happiness in daily living.

Real happiness, however, comes in being of use, not only to one's self but in contributing in service to the pleasure of others.

Instrumental music offers the best known medium of supplying this contribution to the community, primarily because it teaches the boy or girl to think, act and do for himself, which is fundamentally and essentially educational. The result of his efforts when wisely directed and guided are recreational, inspirational and can be made profitable.

Much has been written and said about music concerning the hearts of men, suffice it to be said again that instrumental music has long since become an established and vital part of every function, school, social or otherwise, and the number of present day children who are interested in school music is satisfactory evidence to sustain its further encouragement and development.

The problem today in school music administration is not any more one of organizing or correlating the desires of these children who elect or choose instrumental music, but to find sufficient time to give their needs proper attention which today has reached proportions of actual demand.

Being interested in the culture and progress of matters musical in Braintree it is a well known and widely accepted fact that the schools are more than doing their part in looking ahead, anticipating and preparing this consciousness in the present generation.

The list of school-owned equipment is as follows:

- 7 string basses
- 7 bass drums
- 7 pairs of cymbals
- 1 violin
- 1 bugle
- 1 B flat cornet
- 1 B flat trombone
- 3 B flat altos
- 3 B flat baritones
- 2 E flat upright basses
- 1 BB flat Helicon Sousaphone.

I wish to express my appreciation to the principals and teachers, and to extend sincere thanks for their helpful co-operation.

Respectfully submitted,

FREDERICK W. J. LEWIS.

REPORT OF PHYSICAL EDUCATION INSTRUCTOR

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

Physical Education as a part of the school and community life of pupils, teachers and parents is of vital importance. It is my pleasant duty to present this work in such a way that the results will prove its importance.

During the two years I have been in the Braintree school system, a vast difference in physical education trends has been noticed and results are gratifying. The grade school work is progressing much more smoothly and with the co-operation of the teachers and principals, the pupils seemingly look forward to the day assigned the physical director. In addition to the regular calisthenic lessons which are carried on daily and changed every other week, the upper grades have chosen teams and captains to play the organized games taught by the director. The fact that these games are played during recess and as an after school activity proves that physical education is accomplishing one good objective in our schools. Creative activity in the first and second grades is meeting

with success. For this work, poems which they have learned, and new ones also, are used, in which the child fits the action of the poem into play form, e.g., Little Miss Muffet, Jack and Jill, Humpty-Dumpty.

As an important part of physical education, all desks and seats were properly adjusted in the grades, and in addition every child from the fifth through the eighth grades was given a Posture Test and graded accordingly. Pupils were examined for Scoliosis (low shoulder) and corrective exercises for his or her particular need were prescribed. Of the 672 cases examined, the results were as follows: 177 good, 447 fair, 48 poor. Of the total number, 195 pupils were found to have one shoulder lower than the other. This postural defect may be remedied in most cases by corrective exercises. The test given to the high school boys resulted in a weekly corrective class in which personal attention is given. A follow-up of these cases is greatly needed if desirable results are to be obtained.

This year the high school gym classes average 55 to 60 pupils with all indications of an increase for another year. The size of the gymnasium merely warrants "taking care" of the students during their physical education period and until additional gym space is available such will be the case. Up to this writing, the gymnasium classes have been conducted out-of-doors with the boys participating in Tag Football. Each gym class is divided into six teams (red and gray) so that every Monday and Wednesday there are 36 teams competing. The groups are classified according to height and weight which makes competition fair to every boy. The enthusiasm for this game is very keen and all are anxious to get out-of-doors to play.

Previous to the close of the football season, the physical director commenced interclass basketball with approximately 80 boys taking part every afternoon the gymnasium was available. There is no doubt that an additional gymnasium would be in use every afternoon throughout the winter by boys who are not fortunate enough to be chosen for the high school team. Every boy expressed his desire to continue and was disappointed because of lack of opportunity.

As I had planned in my last year's report, a gymnastic team was organized for boys. This team met once a week for instruction and marching, calisthenics, light and heavy apparatus, tumbling and pyramid building. The interest was exceptionally fine, and our efforts terminated with the Gymnastic Exhibition in May, 1930. The girls, directed by Miss Daughraty, and the boys' gym team, gave the entire evening's performance. The first call this year brought out about fifty candidates who are not participating in other school activities. We are planning two demonstrations, one in February for the South Shore Schoolmen's Club, and a public affair in the Spring. The new apparatus purchased this year for the gymnasium is being used daily and will give more variety for our demonstrations. Additional pieces of the same apparatus is needed for individual instruction and is a great aid for the director required to handle large groups.

The needs of the physical education department may be enumerated as follows:

- a. Need of playground equipment in all schools.

b. Need of additional gymnasium space at the high school.

c. Need of additional teaching time for Physical Education in grades.

d. Need of follow-up instruction in corrective work.

In closing, I wish to thank Superintendent Fisher, Mr. Jordan, principal of the High School, the principals and teachers of the grade schools, the Posse-Nissen trainers, and all others who have aided me in any way towards the success of this department.

Respectfully submitted,

ELLSWORTH R. THWING.

REPORT OF THE PHYSICAL EDUCATION INSTRUCTOR

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

It is with pleasure that I submit my second annual report as Physical Education Director of the Braintree schools.

The grade schools are visited once a week by the instructor, and a lesson left to be taught during the week. **The High School** has two days of the week.

In the grade schools during the winter term the classes are held mostly in the auditoriums. These are not available in all schools, and in these the classes are held in the regular class rooms. Where the auditorium is used the work is of a higher order, more space being put to use and more freedom for the children.

In the first and second grades, story plays, singing games and very simple games are given to develop rhythm.

In the third, fourth and fifth grades, the beginning of formal gymnastics is introduced, also folk dancing, and more progressive games.

In the sixth, seventh and eighth grades half of the period is given to formal gymnastics and the last half to games, developing team work and sportsmanship.

Beginning with the first warm days of spring all classes were taken out-of-doors again when a more active schedule was begun.

Starting in September the seventh and eighth grade girls and boys were separated and the separation has been a great success. The writer feels that the girl and boy of the seventh and eighth grade is at the Physiological age that requires special attention and that the separation is a great aid. Each has improved, not only in formal exercises but in games as well; the boys now being able to play a harder and faster game and the girls to play in accordance with their ability.

During the fall the girls of the seventh and eighth grades had a kick-ball team, with some schools competing with others. The boys had their regular formal exercises as well as regular organized soccer-ball, under the leadership of student trainers from different Normal schools; all the schools competed for championship of the town.

Volley-ball is now being organized by the girls and during the winter they will compete with other schools.

The girls at the High School have gymnastics in the gymnasium during the winter, but go out-of-doors as soon as it is deemed warm enough and in the fall stay out until it is too cold for the health of the majority of girls. The work in the gymnasium consists of:

1. Formal gymnastics, to develop correct posture and co-ordination.

2. Folk dancing, to develop rhythm and a graceful carriage.

3. Apparatus, to promote co-ordination and courage. The new appartus has been tried and enjoyed. It is interesting to see the girls overcome their timidity of a piece of apparatus. They are taught not only to be careful of themselves, but also to be conscious for the next one.

4. Games, to promote teamwork and sportsmanship.

In the spring an exhibition was given with the girls joining the boys. There was no picked team of girls, simply each period of the gym day giving one part of the program, including wand and dumbbell drills, formal gymnastics, apparatus, and a game.

Sports: Basketball is the winter game for the girls. Class teams are formed first and from these the school team is developed.

In the spring came Baseball, which was held out-of-doors.

This fall the Hockey season opened with about 35 girls out for the sport, and a more enthusiastic group of girls could not be found. Seventeen of the 35 girls won their letters.

In closing, I wish to thank Mr. Fisher, superintendent; the principals of the different schools, and the teachers for their co-operation and help throughout the year.

Respectfully submitted,

ALICE E. DAUGHRATY.

REPORT OF THE SCHOOL NURSE

January 1, 1931.

Mr. C. Edward Fisher,
Superintendent of Schools,
Braintree, Massachusetts,

Dear Sir:

Please allow me to submit my second annual report on the health work that is being done in the schools of Braintree.

About 3,600 children have been examined by our school physicians, and 500 or more health cards given out. About 400 dental cards have been given out, and nearly 500 notices regarding tonsils and teeth in the upper grades have been sent home.

I believe the Philergians, who sponsor Mothercraft, were much pleased with the essays written on the subject last year. The best essay was written by Elizabeth Pierce of the Penniman School, who received the gold piece. The next best essays in each school were rewarded by the gift of a book on "Mothercraft". There will be 115 pupils in Mothercraft this year.

Cleanliness is more general among the children this year. Whether it is due to last year's work, or because they feel better for being clean, I cannot say. Home

visits have been made when children did not understand, or did not wish to comprehend the nurse's instructions. Some of the parents are displeased at the notes sent home, but when the home visits are made they take a different view when a full and personal explanation is made.

Since I have taken up this work I have been pleased to note that there seems to be a growing feeling of confidence in the work of the nurse, and a gradual tendency to come to her for help.

There have been a few cases of contagious diseases, measles, scarlet fever, mumps, and so on. People do not seem to understand that in such a case a doctor should be called, the house placarded, and a certificate given by the doctor before the child enters school again. If this is done, it will prevent the spread of contagion.

First aid has been given when asked for or needed. The children are coming to look upon the school nurse as a friend, and to come to her when they do not feel well, or when they have suffered from some injury. In several cases serious conditions (such as broken bones, contagious diseases, etc.) have been detected when children have come to the nurse of their own accord.

Miss Choate, the Welfare Worker, has helped me this year by supplying glasses in some cases.

The Friendly Aid has been of great assistance in all of our work.

In conclusion I wish to thank Mr. Fisher, the Superintendent, and all the principals and teachers of the various schools in Braintree for the fine co-operation which I have received.

Respectfully submitted,

MARY E. COLLINS, R. N.

REPORT OF ATTENDANCE OFFICER

January 1, 1931.

Mr. C. Edward Fisher, Superintendent of Schools,
Braintree, Massachusetts.

Dear Sir:

I hereby submit the following report as Attendance Officer for the year closing December 19, 1930.

I have worked in conjunction with the State Board of Labor and Industries, also the Friendly Aid Association, the School Nurse, and the Qunicy Trade School.

I have investigated 545 cases as reported to me and found pupils absent for the following reasons:

Sickness	143
Truancy	41
Lack of clothing, shoes, etc.	28
Kept out by parents	64
Found on street and taken to school.....	34
Left school	7
Non-registration (New pupils placed in school) ..	6
Found on street and taken home.....	37
Left town	14
Employment cards	8
Tardy	21
Factories and stores visited.....	24
Found at home and taken to school.....	36
Department of Immigration Cases investigated..	0
Destroying and loss of school property.....	0
Disturbances at school and on streets.....	5
Home employment cards granted.....	8
Taken to court	0

Reported to school nurse.....	4
Boys placed under my charge by parents.....	6
From farm to school (under 14 years of age)....	12
Evening calls on parents.....	47

I have investigated all cases of the schools including the Quincy Trade School and High School, in the interest of parents, Superintendent of Schools, and at all times having in mind the welfare of the Town in general.

Respectfully submitted,
CHARLES S. HANNAFORD.

HOW MOTHERS CAN HELP PREVENT SPREAD OF CONTAGION IN SCHOOLS

Certainly it is true that children often contract contagious diseases at school. But the danger of contracting the more severe diseases, namely, diphtheria, smallpox, and scarlet fever is not great at the present time. This is due to the activities of health legislation, and of school authorities. Medical inspection by school physician, daily observation by school or the teacher, enforcement of quarantine in all cases of these diseases, and immunization of children who are susceptible, have gone a long way toward controlling these diseases, and rendering our children relatively safe from them while in school. Mumps, whooping-cough, measles and colds are more apt to be contracted at school. They may be nearly eliminated if parents, family doctor, school and health authorities would all do their part in combating them. We arrive at this point, "Is it worth while to take all these precautions to prevent our children from contracting contagious diseases." Some may say that the children will have these diseases sooner or later, so why not have them while they are young. This is wrong because we are

informed that one of the large hospitals in the country handled over 1,000 cases of measles last year, and one out of every ten was fatal. Getting back to diphtheria, the medical profession tells us that this disease begins in September, gradually increases until the last of December, and then disappears as spring approaches. There may be a few scattered cases the remainder of the year. It is possible to rid the Town of disease as they are doing in about all other towns and cities by immunizing all children from 6 months to 6 years of age and by giving them toxin-antitoxin. What are we going to do for the children from 6 years to 12 years of age? In between and up to the age of 12 years they give what is known as the Schick test. We would advise all parents and guardians and others, responsible for the welfare of children, to protect them. Statistics show that of 100 unprotected children exposed, 10 will take the disease and one will die.

Signed, BOARD OF HEALTH

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

Honorable Board of Selectmen, Braintree, Mass.

Gentlemen:

In compliance with your request, I submit the following report of the Department of Sealer of Weights and Measures, for the year ending December 10, 1930.

I have tried most earnestly during the year just passed to perform the duties of the office in an impartial and fair manner, and therefore be just to all parties concerned. I have found our merchants most courteous and willing to comply with the laws in relation to the sealing of weights and measures and inspections.

CHARLES B. CUMMINGS

Your Board takes this opportunity to mention the passing of Mr. Cummings who served on this Board eight years.

We recognize a personal loss of a friend and co-worker and a loss to the community at large of a faithful, conscientious official of the Town.

He was a constant attendant at Board meetings and his pleasant greetings and genial friendship will be sadly missed as we gather at Board meetings in the future.

GEORGE A. WALKER.
THOMAS E. SEARS.

REPORT OF THE WATER COMMISSIONERS

The Board of Water Commissioners submit the Annual Report of the Water Department for the year ending December 31, 1930.

On pages following, one will find report of expenditures made by this department by votes of the Town under articles 6, 17 and 18.

The water at Great Pond, as last year, reached an extremely low level and we feel the laying of the pipe from Little Pond will prove its worth.

We are disappointed that the line is not in operation at the time of writing this report, but feel certain by the time this report is in print that the line will be in operation.

We have caused to be inserted in the 1931 Town Warrant an article calling for the laying of a water main on Granite Street from Five Corners to the Quincy Line.

We understand this section of Granite Street is to be relocated by the State and that work is liable to start on it this spring or summer and if so then the time to lay the water main would be while the changes in the road were being made.

The estimated cost of this project is \$20,000.00 and if conditions were such that it would have been necessary or advisable to have done this work in 1930 it would have left the Water Department without a sufficient surplus.

The demands for new services has decreased this year as noted in Superintendent's report.

Following are the reports of the Treasurer, Secretary, Registrar, Collector and Superintendent.

IMPORTANT NOTICE TO WATER TAKERS AND PROPERTY OWNERS

In accordance with the provisions of a recent Act of the Massachusetts Legislature, accepted by the Town of Braintree.

UNPAID WATER BILLS ARE A LIEN ON REAL ESTATE and payment of same can be enforced through sale of the property by the Tax Collector in the same manner as in the collection of taxes.

The practice of SHUTTING OFF the supply for NON-PAYMENT of DELINQUENT BILLS is NOT AFFECTED by the lien law in any way.

All water bills are "DELINQUENT" if not paid within TWENTY DAYS after they are rendered and become due.

CHANGING OWNERSHIP OF PROPERTY

When buying or selling real estate it is important that ADJUSTMENT of WATER BILLS be made as of date of transfer in like manner as for taxes.

To assist in making such adjustments the Water Department Office will gladly furnish meter readings and other desired information upon application.

The names and addresses of new owners should be given PROMPTLY to the Water Office, in order that ensuing bills may be properly rendered and possible unnecessary expense and annoyance avoided.

We desire to express our appreciation to those conveyancers who — without the incentive of a lien law — have previously provided for such adjustments

of water rates in the transfer of property and request a general similar co-operation in future transfers of property to the mutual advantage of all concerned.

H. W. MACOMBER,
Water Registrar.

BRAINTREE ELECTRIC LIGHT DEPARTMENT

F. B. Lawrence, Manager

Report Year, 1930

REPORT OF MANAGER

Braintree Electric Light Department

December 31, 1930.

To the Municipal Light Board:

Submitted herewith for your approval, is a physical and financial report of the operations of this Department for 1930. The general public or our customers are realizing the advantage of our low domestic rates and are using our product in larger quantities each year.

Respectfully submitted,

FRED B. LAWRENCE,

Manager.

NEW CUSTOMERS:

One hundred and fifty-two (152) new services were connected during the past year.

Braintree, Mass.

REPORT OF THE PLANNING BOARD

The Planning Board presents its report for the year 1930.

Comprehensive Plan

In accordance with the vote of the 1930 Annual Town Meeting whereby \$200 was appropriated for the expenses of the Planning Board in the preparation of a comprehensive town plan and for the general expenses of the Planning Board, we have made a definite beginning on the work leading to the plan. We are supplementing our own active studies of the problem by engaging the services as consultant of Prof. Arthur C. Comey of the School of City Planning, Harvard University, one of the foremost national authorities on this subject, who has had a broad experience in the planning of towns and cities all over the country. At the end of this report will be found Prof. Comey's first statement, describing the general process of formulating a town plan and explaining in some detail the sort of information needed for such a plan.

It is hardly necessary to dwell on the need for a comprehensive plan. All signs point to the fact that Braintree is now in a very critical position. There can be no question but that our town will continue to grow in population with increasing rapidity, due to our nearness to Boston and our new sewer system, as well as to our many other advantages. This increasing population will need new streets, schools, playgrounds, parks, and other public properties of all sorts. If these are to be obtained at minimum expense to the taxpayers they must be planned for in advance. Land

which is eventually going to be needed for school sites and other purposes should be bought before its price goes up and houses are built upon it. Projects should be studied in relation to each other, so that one will not interfere with another—so that a playground shall not be placed in the path of a future thoroughfare, for instance. In some cases the same property can be used for a combination of purposes, as for example, land around a reservoir used both for protection of water supply and for recreation. Another good feature of a comprehensive plan is that it makes possible a program of execution so that jobs may be carried out at their most advantageous time—excavations for a sewer or water main being done before instead of after a street is resurfaced, for example, and the larger projects being so distributed that their expenses do not come too heavily in any one year. A comprehensive plan is simply an application of good business methods to town affairs.

But a plan is not worth much if it is not based upon facts—such kinds of facts as Prof. Comey describes in his report—and the gathering of these involves time and moderate expense. Therefore we are asking this year for \$720 to pay for this important work, and we hope that this appropriation will be made without diminution, as it represents the actual minimum needed if the work is to be done with the greatest ultimate economy. This will be paid for many times over by the savings made possible through planning.

School Sites

Your Planning Board is strongly in favor of the program of the School Committee regarding the immediate purchase of suitable sites for future school buildings and grounds. Land for this purpose should be secured at once while there is an opportunity to buy at reasonable prices. The Board believes that the sites should be of ample size to provide for the future growth of the town. Experience in other localities has shown this to be an important factor.

Zoning

The events of the past year have only served to strengthen the convictions of the Board regarding the pressing need for zoning in this town. A community which is not zoned today cannot possibly maintain its place in the growth and expansion of facilities and benefits which its neighboring cities and towns enjoy under zoning. The Board, however, believes that more educational work regarding the nature of zoning will be required in Braintree before a zoning plan and by-law can be successfully presented to the citizens for their consideration and approval. To this end, your Board respectfully recommends that the Zoning Committee be continued, to report at the Annual Town Meeting in 1932.

CIVIC CENTER

While your Planning Board believes that it is desirable that the town should acquire the French estate opposite the Town Hall to add more land to provide facilities for an adequate Civic Center, as we advocated by the Board last year, owing to the present financial

situation we do not urge purchase of this land this year.

HANCOCK STREET

We recommend for early consideration by the town the widening and reconstruction of Hancock Street.

This is one of our most important streets, making a direct connection as it does between South Braintree Square and all points south, and is an indispensable link in one of the two main highways of the town in that direction.

The present width including car tracks and sidewalks is thirty-two feet at its southern end. The distance here between the electric light poles on one side and the nearest rail is but fifteen and one-half feet, giving room for only one vehicle and an electric car. When a vehicle traveling north meets an electric car and vehicle going south, there are all the elements set for a bad accident, for the three cannot pass simultaneously.

On Wednesday, August 20, 1930, the State Highway Department took an official count and found that between 7 A.M. and 11 P.M. 3855 cars passed. This, according to their computation of averages over the state would mean a summer Sunday volume of 7664 automobiles passing at this point.

The making of Hancock Street a one-way thoroughfare as has been suggested is but postponing a job that sooner or later must be done at greater expense because of the increasing property damages. Moreover the electric cars cannot be regulated for just one way. The traffic going in the other direction would have to make what amounts to a devious detour, meeting several intersections and adding traffic to an already congested thoroughfare.

Liberty Street

We trust that the widening of certain parts of Liberty Street to forty feet, now being carried out as an unemployment relief measure, will not lead anyone to think of this width as permanently sufficient.

This street runs through four-fifths of the total length of the town, parallel to our main street, at an average distance of about a mile from it thus furnishing a valuable alternate route, connecting directly at its southern end with Pine Street, Holbrook, and an increasingly important route to the Cape and other south shore localities. We believe that Liberty Street is destined to become one of the most important highways in the town. At the very least it must surely be considered a future secondary thoroughfare. The "Rules and Regulations" prescribed by the Board of Survey say on page 5, section 8, "Streets which may become secondary thoroughfares must be at least fifty feet in width." It is inconceivable that our town should fail to obey its own regulations.

Studies of this situation have been started by the County Engineering Department and one hearing has been held, but the work is now at a standstill. Your Planning Board recommends that the Town, through its Selectmen, request the County Commissioners to resume their studies of Liberty Street and formulate plans for its ultimate development.

Invitation

We renew the invitation given in previous reports for any citizen having ideas regarding the planning of

the town to tell us about them. Now that we are actively working on the comprehensive plan we would especially appreciate such suggestions.

Prof. Comey's first report follows.

Respectfully submitted,

THERON I. CAIN, Chairman,

J. CALEB JUSTICE, Secretary,

JOHN F. CLINTON,

JOSEPH W. PARKER,

MERTON A. TURNER,

Members of the Planning Board.

REPORT OF PLANNING CONSULTANT

December 27, 1930.

To the Braintree Planning Board:

In accordance with your instructions I present herewith a program of town planning procedure for Braintree. In this outline I have included both those things already done as well as those remaining to be undertaken, indicating the progress already made. For convenience I have divided the program according to function, but it should always be borne in mind that town planning is not merely planning ahead for each separate municipal activity but planning ahead for each of these matters in due relation to the others.

Certain general underlying factors are listed first, as a part of a general civic survey, but it is not believed to be necessary that all such information be collected and mapped in detail in advance of a demonstrated practical need for it. However, most of the data listed will inevitably be found needed before much of Braintree's plan can be put into action.

With this program before the Board it should be able to proceed in an orderly fashion, even with comparatively small appropriations, to formulate a comprehensive town plan for official adoption. State legislation will doubtless be necessary before the full benefits of town planning can be realized in Braintree. However, the next steps to be taken involve no powers which the town does not already have.

While it might seem simpler to embark at once upon a single long-term program of producing a com-

plete detailed town plan, such a course would produce few tangible benefits until completed, and this would inevitably require a number of years with the limited funds likely to be available. It would therefore appear wiser for the Braintree Planning Board to break the work up into successive stages. This has the added advantage that, while it may involve a certain amount of overlapping effort, it affords a better opportunity for testing out the various proposals of the town plan while still in the rough and thus adjusting them to meet the situation more perfectly when at last presented in detail for adoption. Moreover, the educational advantage of keeping the citizens informed of the general characteristics of the developing town plan is very great when it comes to further support and action by the voters.

It is therefore suggested that this procedure program be considered the basis of, first, a pathfinder survey into each of the major aspects of the town plan, spending only so much time on each as is necessary to ascertain the present situation and to correlate it with the others. In most departments the facts are doubtless already known but have never been studied with sufficient regard to other elements of the town.

This stage might or might not result in any actual concrete plans, depending on the nature of the findings of the survey. It would result, however, in a consolidated statement of the situation, such a statement being at present non-existent. It would also present for the first time in a single picture all the previous planning proposals of many agencies, both those

within the town itself and those metropolitan in point of view, such as the Metropolitan Planning Division and the Massachusetts Highway Department. This last is of utmost importance, as it should be borne in mind that metropolitan agencies approach planning problems in Braintree from the angle of what improvements will benefit Metropolitan Boston as a whole, and not primarily what improvements will benefit Braintree itself. Furthermore, this aspect of the situation extends outside of Braintree's own boundaries, for many of the improvements needed in the surrounding towns have a distinct bearing for better or worse on Braintree's own conditions. Braintree's town plan must therefore include a regional plan showing the relation of the surrounding region to Braintree.

The second stage in town planning for Braintree will be the preparation of a general preliminary plan, presenting in broad outline each phase of the plan properly related to every other phase, and presenting in more detail than can this tentative program the steps necessary to secure actual results. This general plan will be an indication to many different agencies, both in Braintree and outside, of how their particular portion of the physical make-up of the town is related to its remaining elements, and may be utilized by each such agency in its own future planning, to the benefit of both the particular agency's work and to the town as a whole.

The third stage in Braintree's planning, which may be termed official planning, may follow one of three courses. The preliminary plan may be developed into a more authoritative master plan. This

plan would show the approximate location of all major streets and other important improvements. Legislation similar to that recently enacted for the adoption by Boston of an official thoroughfare plan might readily be secured for Braintree. After adoption by the town no public improvements would be permitted in contravention of the plan unless approved by substantially more than a majority vote. Private subdividers would be required to conform to the plan under the same powers as are already exercised by the Board of Survey. One advantage of the master plan is the relative ease and low cost of producing it. Among its disadvantages is the fact that it is often impossible to tell until a resurvey is made just where the future improvement will lie in relation to existing buildings or lots.

At the other extreme, we find a few cities adopting official binding plans, for streets at least, complete in every detail, and dividing the entire area of the municipality into building blocks. Aside from the greater initial expense this method has the disadvantage of tending to stereotype the street plan and to destroy individuality, which would otherwise be likely not only to produce a more interesting layout, but also one more closely adapted to the varied needs of the community.

Between these, a middle course is recommended for Braintree, namely, that the third stage in its planning should be the preparation and adoption of an official town plan, locating accurately as many as pos-

sible of the major streets and other important future improvements. The protection of the future streets mapped on this plan from private buildings being erected in them prior to their being actually laid out is a vital part of such an official plan. This will require state legislation along the lines of the Nichols bill for this purpose proposed by the Massachusetts Federation of Planning Boards. If no such general powers are enacted before Braintree is ready to utilize them a similar bill may readily be drafted applying to Braintree only, and in such form would doubtless meet with no opposition.

The plan itself need not show the location of every detail of future subdivisions, but should be accompanied by a set of standard regulations for platting and private construction which will ensure a high quality in the subdividers' work. This is simply the logical expansion of the powers already exercised by Boards of Survey under Massachusetts legislation. Other factors in the official plan may advantageously be outlined in the report accompanying the second stage, the general preliminary plan, but need not be elaborated further in the present initial program.

Briefly, then, the ultimate goal of the Braintree planning activity should be a comprehensive town plan, enforceable under enabling acts, to supply a binding guide for subsequent public improvements, protection of the plan from private encroachments, and the establishment of standards to prevent unsuitable private platting and construction. The plan will include an effective financial program, and must fit into a regional

plan relating Braintree to the surrounding cities and towns. It may be approached in three stages—1, a pathfinder survey; 2, a preliminary town plan; 3, the official plan itself.

The following program sets forth a method of procedure in carrying out the first stage of Braintree's town plan: a pathfinder survey.

The Pathfinder Survey

Before considering surveys relating to particular aspects of the plan certain **underlying factors** should be presented:

1. Adequate base maps are needed showing the **topography** of (a) the town at about 500 ft. scale, with 5 ft. contours (most of the town is already so mapped). This is the map used as a base for further information, except where noted. (b) The vicinity, at about 2,000 ft. scale (enlarge U. S. topographic map, using 1/30,000 working sheets). (c) The town on a series of standard maps at about 200 ft. scale (this may proceed gradually, with other work).

2. **Use of property** should be graphically presented, showing public and private property of different types (this is already made, but should be periodically brought up to date). A series of old maps should be filed to show periodic changes.

3. **Distribution of population** should be shown by dots, one for every 10 or 25 people. Growth should be shown by a curve on the diagram.

4. **Range in land values** should be graphically shown, plotting typical assessed values (this may be done when actually needed for a specific project or in conjunction with modernizing assessment methods).

The surveys for the specific elements in the plan may be classified under circulation, public property, and private property. Circulation relates primarily to streets, utilities, transit, railroads, waterways, and air transport.

A. As a background for the **major street plan** the present imperfect system of main streets or thoroughfares should be mapped, and all recent highway proposals by other agencies, both local and metropolitan, should be brought together on the map of Braintree and vicinity, and detailed maps showing set-backs of existing buildings made for each project that appears of present merit. This will assist in determining whether building lines may be utilized in securing future widenings. Prior to determining whether further counts of vehicular traffic are needed at any particular time all previous counts by various agencies should be correlated and plotted together. The traffic and parking regulations at present in force should also be shown graphically. A map should show by different colors or designations the widths of all streets likely to be used as parts of future major streets. All street grades of 3% and over should be shown (this may be done when actually needed for specific projects). As a part of a street tree program a map and card catalog of existing trees will be useful. Other accessories to streets, such as lighting fixtures, may call for study to secure high standards.

B. **Utilities**, while somewhat less prominent elements of the town plan, are closely inter-related with other elements in it. Distribution and collection sys-

tems are related to circulation, supply and disposal areas are types of public property. Water supply involves large open spaces with various possible secondary uses. Sanitary sewers must usually follow streets, whether well suited to them in location or not. Storm drains may be kept inexpensive if open water courses can be preserved in parks. There should be filed a brief statement of the future adequacy of the present water supply or of contemplated future supplies, related to the probable population and resulting demand (the Water Department already has data for this). Maps of the successive stages of the proposed sanitary sewerage system should be filed and examined to see where they overlap other town planning features, such as low level trunk sewers in park lands along streams. Similarly, general requirements of future storm drainage should be worked out, and their economic relation to open water courses established. Other utilities have a less vital relation to the town plan, except for example where existing transmission lines practically dictate the economic location of nearby streets. These lines should be shown on the town base maps.

C. **Transport** includes local or street transit and railroad transportation. Bus and street car routes should be shown on one map. On another the volume of traffic over these lines should be shown. Similarly, railroad passenger service should be plotted and the relative number indicated of through passengers to Boston by rail and by bus. Freight stations and all

other railroad property should also be mapped. Any changes already proposed should be included on these maps, particularly the approved grade crossing elimination plans. All grade crossings, including those the elimination of which has not been provided for, should be plotted and studies made of traffic conditions about the latter particularly.

D. Commercial **waterways** in Braintree, while limited in extent, should be studied with the aid of a map to be sure all practical wharfage is made capable of full use.

E. **Air transport** is strictly a regional matter. On a map of the vicinity existing airports should be plotted and notes made as to size, facilities, and type of service provided for. Proposals for other airports may also be noted on the map, with some indication of the likelihood of action in each case.

Public property may be subdivided for city planning purposes according to function, as administrative (including safety: fire and police), utility, education, and recreation. Property pertaining to each of these elements may advantageously be shown on separate maps, as well as on the general use of property maps already noted.

F. Present groupings of **civic buildings** may be mapped as a background for whatever future civic centers are to be developed. The adequacy of police and fire stations to cover the town may be noted.

Utilities have already been dealt with under B, above.

G. The **school system** is a vital part of the city plan. Present schools and the areas served by each,

as well as the proposals of the School Department for meeting future needs may be shown on a map, and any future residential areas not served noted.

H. Similarly, **parks and playgrounds** should be plotted, with the areas served by each, thus indicating all areas not served. Proposals by others for future recreation areas should be checked to see how far they meet future needs. As noted above, parks should be correlated with trunk sewer and open drainage needs. Future parks which include roadways will be related similarly to the street system. Regional aspects of the park system are important. Existing parks should be plotted on a map of the vicinity, also any proposals hitherto made. Golf courses, public and private, should be plotted on these maps. Another type of public open space with somewhat similar problems is the town or state forest. Land unsuited for any other use may be noted as a part of the park survey.

Private property is subjected in any town to various types of control, which may be classified under zoning, housing, and nuisances.

I. Previous **zoning** proposals should be filed and the map of existing uses of property, kept up to date, checked to ascertain what uses occur not conforming to the latest plan. For the needs of industry sites available may be plotted on a separate map. Needs for business areas may also be studied.

J. A **housing** survey of selected blocks and dwellings with bad conditions might bring to light tendencies, as yet slight, which could be stopped by amendments to the building code or in a zoning

scheme. Model housing of relatively low cost may be promoted by publicity of specific good examples and methods used. Architectural standards may similarly be raised for business buildings, pending the time when some form of control is exercised.

K. Among **nuisances** closely related to town planning may be mentioned the legal regulation of billboards and removal of wires. Photographs may be taken of bad examples. Any scheme for reduction of mosquitoes may involve acquisition or drainage of the large meadows and swamps within Braintree's town limits, but this problem is likely to involve regional action for success.

In these and other details the pathfinder survey may bring to light facts needed in the preparation of actual plans for the town. To be of full value it should be followed promptly by the next stage in Braintree's town plan, the preliminary general plan.

Respectfully submitted,

ARTHUR C. COMEY.

ANNUAL REPORT
OF THE
Engineering Department
OF THE
TOWN OF BRAINTREE

FROM
Dec. 31, 1929 to Dec. 31, 1930

Printed by Order of the Town

Printed by
PRATT & PRATT
The Braintree Observer
Braintree, Mass.
1931

Cemetery Department

At the request of the Superintendent, we have made new plans of the Plain Street Cemetery.

Town Survey

The Town Survey, covering the greater part of the Town, which the assessors have had made by a private engineer, is nearing completion. The results of this survey are beneficial not only to the assessors, but to the several departments of the town. It must be remembered the conditions in the Town are changing constantly, and if the plans are not kept up to date, they will soon lose much of their usefulness. A survey of the remainder of the Town should be made without delay.

I feel that, as the Town now has an Engineering Department of its own, all work of an engineering character for the various departments should be done through this office, and I have included in my budget for the coming year, sufficient funds to provide for an extra field party, which will devote their time toward the completion of the Town Survey.

Bench Marks

In all engineering work where it is necessary to determine differences in elevations by spirit levels, and especially where it is desired to co-ordinate the work of various surveys, it is necessary that a uniform datum

be used. It has frequently happened that different engineers working in the same locality have used conflicting bench marks, which has led to much confusion. I intend to remedy this condition by establishing a series of bench marks throughout the town, using the same datum as used by the Metropolitan Sewer Commission.

During the year 1911 the Town Hall was destroyed by fire and many valuable records were destroyed. We do not anticipate having a second fire, but should this happen the records of this department, if not burned, would be destroyed by water, as the Engineering Department's Office is located in the basement.

The estimated value of the plans and note books which we now have, together with the original plans and note books of the Town Survey, which the assessors plan to turn over to this department about the first of next June, is about \$50,000.00. It is very essential that these records should be kept in a fireproof and waterproof vault, and I have included in my budget for the coming year, sufficient funds to construct a vault adjacent to this office.

Details of the financial statement will be found in the report of the Town Accountant.

Before closing my report I wish to thank the Selectmen and my associates in all the town departments for their courtesy and co-operation.

Respectfully submitted,

GEORGE N. WATSON,

Town Engineer.

Stone Bounds

Permanent bounds were set on the following streets:

Bellevue Avenue	4 bounds
Bower Road	2 bounds
Burroughs Road	4 bounds
Dewey Road	7 bounds
Edgehill Road	8 bounds
Fairview Avenue	5 bounds
Kew Road	3 bounds
Liberty Street	1 bound
Strathmore Road	8 bounds
Walnut Street	1 bound
Monatiquot School Grounds	1 bound
Total	44 bounds

Lines and grades were furnished for drainage, curbing and the resurfacing of the following streets:

Street	From	To	Length
Bellevue Ave.	Washington St.	Phillips St.	350
Bower Rd.	Elm St.		645
Burroughs Rd.	Public Portion	Perry Rd.	260
Commercial St.	Adams St.	Shaw St.	4450
Dewey Rd.	Pond St.	Cedar Ave.	590
Edgehill Rd.	Argyle Rd.	Vinedale Rd.	1207
Edgemont Rd.	Public Portion		186
Fairfax Rd.	Pond St.	Private Way	530
Union St.			1280
Walnut St.	Hollis Ave.	Storrs Ave.	856
Total Length (1.96 miles)			10,354

Upon the following named streets, grades have been established, street lines defined, record plans drawn, and estimates made for the Board of Selectmen, for the acceptance under the Betterment Act:

Street	From	To	Length
Cedarcliff Rd.	Quincy Ave.	Shaw St.	1582
Edgemont Rd.	Public Portion	Shaw St.	330
Newton Ave.	Shaw St.	Bickford Rd.	1550
Miller St.	Union St.	Marshall St.	670
Total Length			4132

CURBING LAID DURING 1930

Street	From	To	Length
Academy Street	Washington Street	Tremont Street	1363
Allen Street	Quincy Avenue		20

Respectfully, submitted,
 GEORGE N. WATSON, Town Engineer.

PLAIN STREET CEMETERY

To the Honorable Board of Selectmen of the Town of Braintree:

The first annual report of the Superintendent of the Plain Street Cemetery, for the year ending Dec. 31, 1930, is respectfully submitted as follows:

There were nine burials under my supervision, eight adults and one infant. In the early part of the year, I spent considerable time and effort trying to locate lots and their respective owners. I had the records at Dedham and locally searched, but to no avail. I found people who had deeds which had apparently been recorded in the Town records, but could not be located by the Town Clerk; therefore, it will be necessary to have it surveyed which can be accomplished by using an old plan which was found among local records—this I hope to have completed by early spring,—together with knowledge gathered from lot owners will give as complete records as can be given under the circumstances. This will allow sale of lots for which I have had numerous inquiries.

Much attention was given to flowers and shrubs which with the co-operation of lot owners can be greatly improved next year thereby beautifying the Cemetery.

I also hope with the assistance of Mr. Irving Holbrook to get markers for the balance of the G. A. R. members buried there.

I would recommend a combination tomb and tool house be built suitable size to care for such needs.

Yours,

H. PINAULT,
Superintendent, Plain St. Cemetery.

ANNUAL REPORT OF TREE WARDEN

Dec. 31, 1930.

To the Citizens of the Town of Braintree.

I herewith respectfully submit the report of the Tree Department for the year Dec. 31, 1929, to Dec. 31, 1930.

Appropriation	\$1,325.00
Expenditures:	

Removal of ten trees on the following streets: Commercial, Front, Hollis Ave., Quincy Ave., Spruce and Washington	\$452.92
---	----------

Trimming trees and brush on the following streets: Arborway Drive, Cherry, Common, Elm, Elmwood Park, Faxon, Front, Hollis Ave., Hillside Rd., Liberty, Maple, May Ave., Middle, Quincy Ave., River, Robinson Ave., School, Spruce, Stetson, Tremont, Vine, Washington	792.54
--	--------

Special calls for supervising Electric Light Dept. trimming 64 trips.....	64.00
---	-------

Miscellaneous emergency calls broken limbs, etc.....	15.54
--	-------

Total expenditures vs.	<u> </u>	<u> </u>
appropriation	\$1,325.00	\$1,325.00

In addition, many personal and telephone calls have been made pertaining to the department. Also

several permits have been issued for trimming and removal of trees on private property but under jurisdiction of this department.

The department has endeavored to conserve and promote the natural beauty of our shade trees, at the same time co-operating with the other departments of the town and with public utilities, as well as bearing in mind the safety and welfare of the public.

It is regrettable that the department has been unable to set out any new trees for several years, but the limited appropriation is not sufficient to even accomplish the current years work, leaving no balance for reforestation. It is to be hoped that the citizens of today will follow the example of our forebears in setting out the many beautiful shade trees that we enjoy today.

Yours in citizenship,

C. R. BESTICK,

Tree Warden.

REPORT OF THE TRUSTEES OF THAYER PUBLIC LIBRARY

To the Citizens of Braintree:

The Trustees of Thayer Public Library submit herewith their report for the year 1930.

The accounts relating to the expenditures of the appropriations made at the 1930 Town Meeting for the support of the Library may be found in the report of the Town Accounting Officer, and the accounts relating to the several Trust Funds held by the Library Trustees are appended hereto.

We desire particularly to call to your attention the remarkable increase in the circulation of books in 1930 as compared with 1929. In 1930 the total circulation was 77,744 as compared with 57,838 in 1929, an increase of approximately 20,000.

The circulation from the main Library was 41,902, as compared with 36,525 in the previous year; from the Braintree Branch, 16,228 as compared with 8,212; from the Jonas Perkins School Branch 10,547 as compared with 6,478; from the Quincy Avenue Branch 9,067 as compared with 6,623.

In our opinion, the above increase in the use of the facilities of Library and Branches is due entirely to the fact that the additional appropriations at the 1930 Town Meeting made it possible to increase substantially the number of hours which the Library is open each week and to purchase more books with which to meet the requirements of the borrowers. 2,773 new books were added in 1930, compared with 1,591 in 1929 and 1,234 in 1928. The total number of books owned by the Library on December 31, 1930 was 22,600.

In view of the unusual results of the past year, we feel fully justified in recommending and urging a moderate increase in the appropriation for 1931 for the purchase of new books and the services of an additional Library assistant.

The Trustees wish at this time to call attention to the fact that \$600 was paid last year for rental quarters for two of our Branch Libraries. The equipment in these two Branches is meager and the facilities inadequate.

The time is at hand, the Trustees believe, when the citizens of the Town of Braintree should give serious consideration to the wisdom of replacing these rentals with two inexpensive but carefully planned Branch Libraries advantageously located at Braintree and East Braintree.

It is to be hoped that this suggestion of the Trustees will be made a full and frank discussion by the citizens during the coming year, and that a warrant will be drawn up for consideration and action at the Annual Town Meeting in the spring of 1932.

Respectfully submitted,

STACY B. SOUTHWORTH, Chairman.

ALBERT E. AVERY

MABEL S. ROGERS

CLARA G. WETHERBEE

JOHN W. HARDING

Secretary and Treasurer.

FINANCIAL REPORT

- fnr Female Non-Resident
- AUTO ACCIDENTS:

Minor—Accident in which Property Damage was incurred.
 Serious—Accident in which personal injury, however slight, was sustained.

Of the total seventy-nine (79) persons reported missing, all have been located.

The department recovered property to the value of about \$16,450.

RECOMMENDATIONS

I have recommended the appointment of four men. One to take the place of Officer August Johnson, whom I expect to be pensioned because of injuries sustained in the performance of his duty. One man to do station duty, on wagon and ambulance calls. One man to cover North Braintree in place of Officer Illingworth, the motorcycle officer, now on a beat. One man to drive new motorcycle asked for in budget.

I have asked for the purchase of a new Harley-Davidson Motorcycle to be used in addition to the present machine. Route 58, now completed and in use, will bring considerably more traffic through the South section of our town, from the Milton line to the Weymouth line. Therefore, I feel that it is most urgent that this thoroughfare be patrolled.

At this time I wish to thank the men of my department for their earnest efforts and good work in the enforcement of Law and Order in this community.

Very truly,

JOHN J. HEANEY,

Chief of Police.

REPORT OF PARK COMMISSION

French's Common

The season of 1930 was one of the most successful in years. Over 4,000 children attended the supervised play program during the season and twice that number witnessed all sports on the Common playing field. This included the Sunset League games. White Sox games during the holidays and Saturdays. Girls' field hockey games, and Grammar school soccer football. Last Summer new loam was placed along the base line making the field much faster to play on.

Shrubbery and floral plants were installed at the entrance from Tremont Street. This makes a very attractive entrance to the grove and playing field. Grass has been mowed weekly both on the Tremont Street side and on the playing field. The Grove with its playground apparatus attracts a large number evenings. Mothers with smaller children enjoy this very much during the hot season.

Both the Hollingsworth Park and the Washington, Pond Street plot were cared for once last season.

Hollis Field

The past summer the grounds have been mowed and cleaned every week. The new combination tennis court and skating pond was completed in November by the Massachusetts Amiesite Co., under the supervision of Mr. Austerberry and the Town Engineer, and Chief Tenney. His men flooded the pond and kept it in good condition for skating.

The Mother's Club of the Hollis School contributed two hundred dollars (\$200.00) toward building this pond.

Two wire system was installed on the grounds this season. New seats, extension to the back-stop, new posts to protect the ball field and other improvements were made.

The summer school was largely attended.

The Board of Health have filled in a large area this past year.

REPORT OF WORK FOR 1930—PRECINCT 3

The following is a report of work performed necessary to the proper operation of playgrounds in this precinct.

Adams Street

Cutting of grass.

Cut out of baseball diamond.

Repaired backstop.

Put in players' benches.

Watson Park

Cutting of grass.

Installed two new tennis courts with backstops.

Resurfaced old tennis courts.

Installed six new iron park benches.

Cleaned out and banked up skating pond.

ALBERT F. HOLLIS, Chairman

JOHN N. ROGER, Treasurer

WM. C. MITCHELL, Secretary

Park Commissioners.

ASSESSORS' REPORT

In the year 1628 Massachusetts raised as its first tax forty dollars. In the year 1930 the amount raised by taxation throughout Massachusetts for city, town, county, district and state activities exceeded \$365,000,000. or a million per day; the first tax was a "voluntary tax" and the present day tax is voluntary also, for the obligation is laid by vote of town meeting or other body politic, and the assessors cut the garment according to the cloth furnished. Of the total expenditures Education leads taking 27.55% of the total; Interest and debt 16.86%, Highways 12.38%, Fire & Police 10.79% etc. Of the source of the amount raised, Real Estate constitutes 49.38%, tangible personal property only 6.58%, income tax 7.83% and so on.

The tax commissioner says, "there is no more difficult task imposed upon assessors than the obligation requiring them to assess household furnishings; with regard to the taxation of the contents of households, and of jewelry, there is no measure of equity in the existing practices and results speak for themselves, presenting an indictment of the present lack of system, while in the meantime real estate is the sufferer." There is a growing custom in many communities to assess personal property on a basis of say 20% of the assessed value of the dwelling which contains it. Many states are now making serious study of the relative burdens borne by real and personal property, and as we have reported each recent year, your Board is desirous of adjusting this inequitable condition, but admit that it must be done on a large scale and as nearly as possible simultaneously through-

out town when it is done at all, and that it can never be done properly except with the support and co-operation of every citizen by yearly declaration as required by existing law.

The valuation of the town was set at a new high of \$24,838,925 and the number of polls reached 4522.

The new auto-excise law worked better than the 1928 law; to the mutual advantage of owner and municipality, the public understanding better what co-operation is required from individual owners, the \$2.00 minimum making a lesser number of small abatements, while the owner has six months instead of sixty days in which to apply for adjustment.

The benefit of the plans of the town, which are now nearing completion, is great for our offices and also for other departments, as expected. An extra complete set of prints has been made for the engineering department, and either set is available for the purpose of examination and information to any citizen. There remains an area consisting of the northerly half-mile of the town, which was not included in the Branch contract and it is quite necessary that means be found soon to have this area mapped to conform with the part already done and the completed maps brought down to date. We have expected that the new engineering department could attend to this, but time has not seemed available to them so far in their existence. If no other way is found, we recommend that the work be done forthwith by Mr. Branch who already has a great amount of data ready for use.

The following table is a copy of the public record, and shows the citizen plainly just how the wheels go around.

WARRANT

For Annual Town Meeting

in their respective Precincts, to wit:—

Norfolk, ss. To either of the Constables of the Town of Braintree. Greeting:—

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Braintree, qualified to vote in elections therein, to meet at the polling places

Polling Place in Precinct 1, Town Hall.

Polling Place in Precinct 2, Legion Building, Hollis Avenue.

Polling Place in Precinct 3, Hose House, Allen Street.

On Monday, the second day of March, 1931, at five forty-five o'clock in the forenoon, then and there to bring into the Wardens of their respective Precincts their votes on the official ballot for a Moderator, Town Clerk, a Town Treasurer, one Selectman for a term of three years, one member of the Board of Public Welfare for a term of three years, one member of the Board of Assessors for a term of three years, three Auditors, one Water Commissioner and Commissioner of Sinking Funds for a term of three years, one Water Commissioner and Commissioner of Sinking Funds for a term of two years, two members of the School Committee for a term of three years, one member of the Municipal Lighting Board for a term of three years, one Park Commissioner for a term of three years, a Tax Collec-

tor, a Tree Warden, two members of the Planning Board for a term of three years, one member of the Board of Health for a term of three years, one Trustee of Thayer Public Library for a term of two years, one Trustee of Thayer Public Library for a term of one year; one Sewer Commissioner for a term of three years, one Sewer Commissioner for a term of two years, one Sewer Commissioner for a term of one year, one member of School Committee for unexpired term of two years to fill vacancy; and fifteen Constables.

The polls will be open at five forty-five o'clock in the forenoon, and will be closed at three o'clock in the afternoon.

You are further directed to notify and warn the said inhabitants qualified to vote as aforesaid, to meet at the Town Hall in said Braintree on Monday, the ninth day of March, 1931, at seven forty-five o'clock in the evening, then and there to act upon the following articles, namely:—

Article 1. To choose all Town Officers, except those elected by ballot.

Article 2. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 3. To see if the Town will hold its Treasurer harmless on his bond for any loss which may arise from the failure of any National Bank or Trust

Company in which the funds of the Town may be on deposit, said Bank or Trust Company being designated by the Selectmen.

Article 4. To see if the Town will hold its Collector harmless on his bond from any loss which may arise from the failure of any National Bank or Trust Company in which the funds of the Town may be on deposit, said Bank or Trust Company being designated by the Selectmen.

Article 5. To hear and act upon the report of the several boards of Town Officers, and any committee, and to choose any committee the Town may think proper.

RULES AND DIRECTIONS IN CASE OF FIRE

To give an alarm of fire, open door, pull hook down and let go; then shut door, stay at box and direct the firemen to the fire.

Second alarm is to be given by the Chief or some one in authority. It is to be given by repeating the first.

Two Blows, fire all out.

Two Blows at 12:00, noon test.

Three Blows, Chief's call.

Four Blows, to open draw bridge.

One Blow, calls lineman.

2-2-2, lost child call.

Box Test, at noon Saturdays.

Five Blows, woods fire South Braintree district.

Six Blows, woods fire Braintree district.

Seven Blows, woods fire East Braintree district.

Out-of-Town calls: Quincy 55; Weymouth 66; Randolph 77; Holbrook 88. Vacancy of apparatus answering call to be covered by Squad A.

Do not pull box for woods fires, call Central Station.

No School Signal on stormy days, 3-3-3 will be sounded on the fire alarm; no session for all grades at 7:30 A. M. No session for first four grades 8:00; no session for all grades 11:30; no session for first four grades 12:30.

Chief's Res. Tel. 0016.

Central Fire Station, 0315.

East Braintree Station, 0750.
